TRUTH OF SINKING OF LUSITANIA  
COMES TO LIGHT IN GERMANY

U-BOAT CAPTAIN  
NOT UNDER ANY  
SPECIFIC ORDERS

Log of Underseas Craft  
Tells Incident of  
Great War.

COMMANDER WRITES

Official Story Of Tragic  
Event Taken From  
Vessels Cabin.

U-BOAT COMMANDER  
TELLS OF HIS WORK

A photographic copy of the of-  
ficial log of Captain Lieutenant  
Schwieger, commander of the Ger-  
man submarine U-20, which sank  
the Lusitania, is today in posses-  
sion of the International News  
Service.

The document, which describes  
one of the most tragic incidents  
in history shows that Schwieger  
was not under specific orders to  
sink the Lusitania. He was on  
his return to his base after an as-  
signment to harass shipping off  
Liverpool when the Lusitania was  
encountered. Schwieger knew he  
was sinking a giant passenger liner,  
but he did not know it was the  
Lusitania until after the fatal  
shot was fired. Only one torpedo  
was launched and Schwieger de-  
scribed the emotion which prevent-  
ed him from shooting again into  
the struggling mass of humanity.  
Schwieger's official log ranks as  
one of the most important papers  
in the history of the world's great-  
est war and is here revealed for  
the first time.

Berlin, March 23.—Like a voice  
from vaults of the dead, the official  
story of the destruction of the Lusit-  
ania—written on the historic after-  
noon of May 7, 1915, by the German  
submarine commander whose hand  
directed the fatal shot is here given  
to the world.

It is a terse passionless document  
jotted down in brief sentences with-  
in the tiny cabin of a steel terror of  
the deep, by Captain Lieutenant  
Schwieger, who commanded the Ger-  
man U-20.

This arch fiend is dead, but his  
posthumous story:  
HOW I SANK THE LUSITANIA.  
exists in the archives of the German  
navy. It is written over his signa-  
ture and the very lack of sentiment  
in the epochal narrative stands in  
weird contrast to the shock which the  
sinking of the Lusitania, with the  
loss of 1,195 lives, gave to civilization.

Schwieger, the log shows, had been  
ordered to the Irish sea to harass  
shipping off Liverpool.

On account of the vast network  
of barricades erected by the British  
navy at North Channel he started to  
sail all the way around Ireland but  
his fuel ran short and he decided to  
discard his orders and return to his  
base. He had started back to Wil-  
helmshaven when he suddenly met  
the Lusitania.

The submarine commander was  
surprised to see a giant passenger  
liner steaming unconcernedly east-  
ward past the south coast of Ireland.  
Schwieger jotted down a criticism in  
his official diary. He thought it was  
bad management on the part of the  
British admiralty to let the great  
Cunard liner pass through St.  
George's channel instead of North  
Channel (between Ireland and Scot-  
land).

"It remained inexplicable why the  
Lusitania was not sent through the  
North Channel," wrote Schwieger in  
his log after the Lusitania had been  
sent to the bottom.

Schwieger told of his vigil at the  
periscope. The mighty liner is re-  
flected in the water. It has four  
great funnels and is evidently one of  
the floating palaces of the Atlantic.  
The U-20 submerges and plunges  
ahead at high speed to intercept the  
doomed ship. The submarine rises to  
see the greyhound steaming ahead  
at 22 sea miles an hour. There is a  
sharp command. A great "G" tor-  
pedo is fired at 700 meters range.  
It strikes. A gaping hole is torn in  
the proud liner on the starboard side  
behind the bridge. A terrific explo-  
sion follows. There is a second ex-  
plosion and the debris with a spurt  
shot skyward. The ship begins to  
heel over. There is tremendous ex-  
citement on board. It appears that  
the officers have lost their heads.  
They cannot get their lifeboats  
launched. Another shot? Schwieger  
is tempted. But adds in his log:  
"I couldn't have fired a second tor-  
pedo into this throng of humanity  
attempting to save themselves, any  
way."

County Agent Ford S. Prince an-  
nounces that the Hessian fly meet-  
ing which was to have been held last  
Tuesday at Bowersville, and which  
was postponed on account of rain  
will take place Thursday afternoon at  
2 o'clock. The evening of the same  
day a Farm Bureau meeting will take  
place at 7:30 at Bowersville. Repre-  
sentative W. B. Bryson will be a  
speaker.

WAGE AGREEMENT  
BASED ON MAJORITY

Washington, March 23.—President  
Wilson today made public a letter  
which he has written to the coal  
miners and operators in which he de-  
clares that the majority of bitumi-  
nous coal commissioner is the one  
upon which the new wage agreement  
between the miners and operators  
must be based.

The president urged that the min-  
ers and the operators meet in con-  
ference at the earliest possible mo-  
ment and draw a new wage agree-  
ment based on the majority report in  
order that the public may no longer  
be worried over the question of coal  
shortage.

THE HOOVEN & ALLISON COMPANY  
INCREASES CAPITAL TO SIX MILLION

SHERIFF ROUNDS  
UP GANG OF SIX  
ALLEGED HOBOES

Given Thirty Days In  
the Workhouse By the  
Court.

In the belief that some of a gang  
of six hoboies which were picked up  
on the farm of I. T. Cummins on the  
Wilmington pike where they were  
camping Monday evening, might be  
part of the bunch of prisoners who es-  
caped from the Dayton work house re-  
cently, Sheriff L. Funderburgh tele-  
phoned the superintendent of the in-  
stitution, who came to this city last  
night.

While none of the prisoners of the  
number which had escaped from the  
work house, the Dayton official recog-  
nized two of them, James Davis, 50,  
and Ed Wilson, alias "Lucky" Kootz,  
37, as men who had been in the Day-  
ton work house repeatedly. Both were  
Dayton prisoners, he said.

The men arrested before Justice of  
the Peace J. E. Jones at 8 o'clock at  
night, and each fined \$10 and costs  
and given 30 days in the work house  
for camping on property without per-  
mission of the owner.

The other members of the gang gave  
their names as: James Martin, 36;  
Frank Carr, 43; Joseph Holland, 46.  
The men were sitting about open fire  
when they were arrested, and the  
ground in the vicinity was strewn with  
egg shells, and other remnants of  
meals. The gang had been camping  
on the Cummins farm for a day or so.

Sheriff Funderburgh and Deputy  
Sheriff Birch arrested the sextette and  
brought them to Xenia about supper-  
time. The officers believe that the  
gang was getting ready to commit  
some thefts or other crimes, and that  
their arrest before they had opportu-  
nity to carry out their plans was for-  
tunate. Several of the gang were in  
Xenia Monday afternoon. All are large  
powerful men.

DELAWARE SLATED  
TO BE THIRTY SIXTH  
SUFFRAGE STATE

Dover, Del., March 23.—Ratifica-  
tion of the woman suffrage amend-  
ment by the Delaware legislature  
seemed practically assured today,  
making the necessary 36 state ratifi-  
cations to include the amendment  
as part of the federal constitution.

A caucus of republican members  
was summoned this morning and  
this was to be followed by the read-  
ing of a special message from Gov-  
ernor Townsend to both bodies of the  
legislature in joint session urging the  
passage of the measure.

U. S. Senator Ball and Representa-  
tive Layton were said to be "applying  
the electrician's iron" to bring the re-  
calcitrants into line. A test vote  
was scheduled for this afternoon but  
it may be several days before final  
action is taken.

BRADFUTE AND BRYSON  
TO ADDRESS MEETING

County Agent Ford S. Prince an-  
nounces that the Hessian fly meet-  
ing which was to have been held last  
Tuesday at Bowersville, and which  
was postponed on account of rain  
will take place Thursday afternoon at  
2 o'clock. The evening of the same  
day a Farm Bureau meeting will take  
place at 7:30 at Bowersville. Repre-  
sentative W. B. Bryson will be a  
speaker.

O. E. Bradfute, president of The  
Ohio Farm Bureau Federation, and  
Representative Bryson will speak at  
a Farm Bureau meeting which is to  
take place at New Jasper Friday  
night. Mr. Bradfute will talk on the  
National and State Farm Bureaus,  
and Mr. Bryson will discuss taxation.

Local Cordage Concern  
Issuing New Lot of  
Its Stock.

The Hooven & Allison Company,  
manufacturers of rope and cordage,  
and operators of three plants in  
Xenia, one in Covington, Ky., one in  
Cincinnati, and one in Kansas City,  
Mo., has increased its capital stock  
from \$1,500,000 to \$6,000,000, ac-  
cording to the announcement made  
by officials of the company here.

The rise in value of all materials  
that enter into the manufacture of  
cordage and the larger out-put pro-  
vided by increased equipment, is given  
as the cause for the increase in  
stock by the directors. With the in-  
crease in capital stock the announce-  
ment is made that all present pre-  
ferred stock will be retired and \$1-  
500,000 of new preferred stock is  
issued. The unissued portion of the  
preferred stock will be held in the  
treasury and can be issued in the  
future if the needs of the business  
require it.

The issue of \$1,500,000 of preferred  
stock will be protected by \$750,-  
000 worth of common stock, as well  
as a considerable surplus, according  
to the announcement of the Corpora-  
tion. The present holders of preferred  
stock, whether holding the first  
issue known as "preferred" or the  
later issue known as "B preferred,"  
will have the right to subscribe at  
par for an additional amount of the  
new "first preferred stock," equal in  
amount to not more than one half of  
their present holdings.

The increase in capital stock to  
\$6,000,000 tends further to popular-  
ize the slogan "spinners of fine cor-  
dage since 1869" and through the vast  
output of the Hooven & Allison Com-  
pany to carry the name of Xenia fur-  
ther over the civilized world. The  
immense issue is a milestone in the  
progress of the company, which be-  
gan the manufacture of cordage in  
a back street workshop in this  
city in 1869, and has since grown to  
be one of the largest concerns man-  
ufacturing cordage in the world today.

From the small workshop, where  
the product was turned out in a  
crude way, long "rope-walks" were  
built, where the cordage was made  
by hand, and from which the present  
name "rope-walks" is derived. Later  
improved machinery developed the  
business until all of the product is  
now machine made, operated by men  
and girls. The steady growth of the  
business over a half century of ex-  
istence has necessitated the estab-  
lishment of mills at North Kansas  
City, Cincinnati and Covington, and  
the large demand has been supplied  
by the establishment of branches and  
complete stocks in Minneapolis,  
Minn., New Orleans, La., Seattle,  
Wash., North Kansas City, Mo.,  
Omaha, Neb., and Tulsa, Oklahoma.

MINERS MAY QUIT  
MINES FOR DECISION  
ON NEW WAGE SCALE

New York, Mar. 23.—Negotiations  
for a new wage agreement for anthra-  
citic coal miners were virtually at  
a standstill, pending a decision here  
today by the workers' general scale  
committee as to whether there is to  
be a suspension of work April 1, when  
the present agreement expires.

Sentiment of the miners, as inter-  
preted by union leaders tonight, is  
unanimously in favor of a walkout,  
unless the mine operators agree to  
make any wage increase retroactive  
from April 1. The operators are re-  
portedly opposed to such an agreement.  
"Tomorrow will decide as to whether  
there will be peace or war in the  
anthracite industry," one union rep-  
resentative declared. "We hope to take  
definite action that will settle this  
part of the controversy."

Hope of speeding up the negotia-  
tions, which have been in progress  
here since March 9, and reaching a  
definite understanding on the miners  
demands by April 1 has been virtu-  
ally abandoned. Members of the sub-  
committee of miners and operators  
conducting the negotiations declared  
their deliberations probably will ex-  
tend well into April.

BRITISH SENTRY IS  
CHARGED WITH CRIME

Cork, Ireland, March 23.—An at-  
tempt to assassinate Professor Stock-  
ley, Sinn Fein Alderman of Cork,  
last night, according to a declara-  
tion by Stockley today. This was the  
second attempt upon Stockley's life  
within a week. Stockley was on his  
way home when challenged by a Brit-  
ish sentry. He was given permis-  
sion to pass, but immediately after-  
wards lunged at the professor with  
his bayonet, but missed.

PRICES OF SHOES  
TO FALL GREATLY

New York, March 23.—Prices  
of standard shoes will be reduced  
during the spring and summer,  
John J. Slater, president of the  
Retail Shoe Dealers' Association,  
announced today in a communi-  
cation to Arthur Williams, fed-  
eral food administration.

Retailers at a recent meeting  
decided to be content with a small-  
er margin of profit, Slater said.  
Reductions, however, will not ap-  
ply to "all kinds of fancy and ul-  
tra-fashionable footwear."

The action of the retail shoe deal-  
ers, Mr. Williams said, probably  
presaged the beginning of a general  
narrowing of profit margins in other  
wearing apparel.

VOTERS REGISTER  
OPINIONS ABOUT  
DAYLIGHT SAVING

Booths Placed in Differ-  
ent Parts of City  
Tuesday

COUNT ON THURSDAY

Polls Will Close Thursday  
at 10 a. m.; Result  
Given Commission.

Here's where to vote  
Kearney Bros. grocery.  
Chambliss Bros. grocery.  
Davis grocery.  
Taylor grocery.  
East End Drug Store.  
Holmes grocery.  
Bradstreet grocery.

Many votes were received early  
Tuesday morning at the office of the  
Gazette and Republican in the straw  
vote being conducted by these papers  
on the "daylight saving" plan.

The votes received early were  
brought into the office and dropped  
into the ballot box kept there, while  
others were received through the mail  
during the day and put into the bal-  
lot box.

For the convenience of persons in  
the residential district of the city,  
the above voting places have been  
selected, where a ballot box will be  
maintained and votes can be handed  
in at any time up until Thursday  
when a collection of the votes will be  
made in order to present the results  
before the regular meeting of the City  
Commission Thursday night.

The fact that the cities within a  
radius of a few miles of Xenia have  
passed an ordinance advancing the  
clocks an hour, makes such action  
on the part of the city almost im-  
perative. Confusion would be experi-  
enced by travelers from one city to an-  
other should Xenia retain the present  
form of time while Dayton and  
Springfield both observe the "hour  
more daylight" plan. It is pointed  
out that Xenians wishing to go to  
Dayton to a show at eight o'clock in  
the evening would have to leave at  
six o'clock.

City Manager Kenyon Riddle said  
Tuesday that he was thoroughly in  
favor of the plan for more daylight.  
The Manager said he would back any  
movement of the sort and while he  
did not know how the city commis-  
sion felt on the question, that he was  
confident personally, that such a plan  
was necessary this summer.

While a wider expression of the  
opinions of the people could be ob-  
tained by continuing the voting long-  
er, the ballot boxes will close Thurs-  
day at 10 a. m. in order to enable the  
votes to be counted and the results  
presented before the commission at  
Thursday night's meeting. This would  
insure thirty day action on the mat-  
ter in case the ordinance is passed as  
an emergency measure and put the  
daylight saving plan into effect about  
the time it will go into operation in  
Dayton. Such action would make the  
clocks go forward about April 25.

COMMISSIONERS VOTE  
TO WIDEN OLD PIKE

The county commissioners yester-  
day granted a petition to widen the  
Springfield and Jamestown pike, be-  
tween Clifton and Jamestown, from 40  
to 50 feet. It was necessary to widen  
the pike before the state would join  
with the county in improving the road  
next summer, as the state will not  
enter a contract to improve a high-  
way less than 50 feet in width.

Because of the refusal of one prop-  
erty owner abutting on the pike, to  
sign a waiver of the right to cause  
the matter to go through regular  
court proceedings, it was necessary for  
the commissioners to proceed before the  
commissioners as a regular road case.

AURORA BOREALIS DISPLAY IS  
CAUSE OF SPECULATION MONDAY

Nature Stages Electrical  
Feat Lighting Up the  
Heavens.

While Xenia people conjectured  
Monday night as to whether the  
skies were on fire or just how far  
the big searchlight at the Delco plant  
in Dayton, could throw a beam of  
light, the Aurora Borealis, commonly  
known as the Northern Lights, danc-  
ed a lively skit across the heavens  
for the edification of the watching  
crowds below.

Incidentally Aurora played havoc with  
telegaph lines all over the country  
but the majority of Xenia people paid  
little attention to the antics of the  
illumination other than to make mun-  
dane remarks on the power of that

J. R. B. ALICE DOUBLES MONDAY

While the Aurora Borealis was  
performing for the benefit of the  
many watchers in this city Mon-  
day night, Rory Bory Alice, was  
amusing the crowds at a local  
picture house.

Rory Bory Alice is the name  
of one of the characters in Mabel  
Normand's comedy "Jinx." People  
who were in the picture show and  
did not see the Northern Lights,  
at least did not miss seeing "Rory  
Bory Alice."

The Delco searchlight. The opinion that  
the Delco light was responsible for  
the lights seemed to be general.

As a matter of fact the lights rep-  
resented the March visit of Aurora  
Borealis, which is seen this far south  
only during the months of March and  
September. At these times, accord-  
ing to the explanation of scientists,  
the earth is directly over the spot  
area on the sun, and this is thought  
to be partially the cause of the dis-  
play Monday night.

The aurora assumed two forms,  
and both were visible to watchers  
here Monday night. One form is a  
series of light blades that move from  
left to right and up and down, while  
the other is a curtain-like formation  
from which small points of light eman-  
ate. The blades of light were vis-  
ible a little west of north from this  
city, while the curtain formation  
hung across the northern skies to-  
ward the east. The curtain was con-  
tinually moving and the electro-mag-  
netic effect was beautiful.

The lights were visible between  
eight and ten o'clock.

OHIO IN DANGER  
OF LOSING ITS LEAD  
IN STAMP SALES

Columbus, O., Mar. 23.—Ohio, for  
the first time in two years, stands  
in danger of losing its lead in the na-  
tion in the sale of war savings se-  
curities. Figures just issued at Wash-  
ington show New York closely press-  
ing the Buckeye state.

A call to arms for Ohioans was  
immediately sounded by State Sav-  
ings Director H. P. Wolfe. "We shall  
never relinquish the lead," Wolfe de-  
clared. He announced plans for a  
"Beat New York" campaign to be  
launched immediately and to be con-  
ducted through April.

Ohio postmasters are to be asked  
to push the sale of \$100 treasury sav-  
ings certificates, schools are to con-  
duct a state-wide drive for the sale  
of war savings stamps, lodges are  
urged to purchase the limit amount of  
treasury savings certificates, and  
clubs throughout Ohio are to be asked  
to wage campaigns in their re-  
spective communities.

CEDARVILLE LAD IS  
BADLY INJURED AS  
DYNAMITE EXPLODES

With his left arm, and the ends of  
the thumb and forefinger on his right  
hand lacerated from the explosion of  
a dynamite cap which he found while  
playing in a pile of rubbish, Martin  
Bates, eight year old son of Hayes  
Bates, Cedarville metal dealer, was  
brought to the McClellan Hospital.  
An X-ray examination disclosed about  
50 pieces of the metal cap in the boy's  
arm and a few in his chest. No at-  
tempt was made to remove the bits of  
metal. The boy was given tetanus  
anti-toxin, and his condition was said  
to be favorable today.

The cap was of the kind used to  
explode fuses in blasting. It was two  
inches long, and was attached to a  
two cell battery, with wires. The  
child was trying to fasten it to his  
little wagon when it exploded. The  
bits of metal tore through a heavy  
overcoat the boy was wearing, pene-  
trating the arm to a depth of from a  
quarter to half an inch.

FIREMEN STAND  
READY WHEN OIL  
TRUCK OVERTURNS

Man Pinned Beneath Car  
Escapes Serious  
Injury.

While city firemen, with fireapparatus  
at hand, stood ready in case a blaze  
should break out in the wreckage, men  
lifted the truck of the Refiner's Oil  
Company, and released the Xenia  
agent, William H. Long, who was  
struck and overturned by a big truck  
of The Greene and Greene company of  
Dayton, at Main and Monroe streets,  
Monday evening. Mr. Long's injuries  
were minor.

Oil poured from the tank of the  
truck when it upset. City firemen  
at the station a short distance away  
saw the accident, and ran to the scene  
with the fire truck. Their services  
were not needed.

The oil truck was travelling north  
on Monroe street, and the Green and  
Green truck was going west on Main.  
It struck the oil truck after the latter  
had cleared the street car track,  
and ran some distance before it stop-  
ped. The larger truck was not dam-  
aged, but the top, windshield and  
other parts of oil truck were crushed.  
Mr. Long received a cut over one eye,  
and some cuts and bruises on one arm.  
He walked to the office of Dr. George  
Davis who found that he had no se-  
rious hurts.

The service truck of the W. A.  
Kelly Ford agency was immediately  
following the oil truck when the ac-  
cident occurred. Mr. Long had trouble  
with his car in the country, and the  
service truck with workmen had  
gone out and made repairs. The oil  
truck was traveling very slowly when  
the accident occurred and the men in  
the service truck were watching its  
progress.

FORMER XENIAN  
RAILROADER RAISED

Railroad men are interested in the  
announcement of the promotion of E.  
M. Pence, former Xenian, to the po-  
sition of superintendent of telegraph  
and signals of the western division of  
the Pennsylvania System, with head-  
quarters at St. Louis. Mr. Pence has  
been division operator for the Cincin-  
nati division, at Cincinnati. He was  
a telegraph operator in this city a  
number of years ago, and married  
Miss Charlotte Doogan of this city.

MINERS BATTLE WITH  
DETECTIVES; THREE  
KILLED IN FIGHT

Middlesboro, Ky., Mar. 23.—Three  
men were killed and four wounded  
Saturday night in a pitched battle  
between miners of the Harlan county  
coal fields and special detectives hired  
by the mine owners to prevent the  
unionizing. News of the battle was  
received here only today and it is be-  
lieved to have been suppressed.

The trouble, brewing for months,  
came to a head when one of the de-  
tectives slapped the son of Bud Tay-  
lor, a miner. A father took up the  
quarrel and it is alleged, was shot  
dead by the detective. Other miners  
fired on him, and general rioting fol-  
lowed. Deputy Sheriff Burkes was  
one of those killed in the fighting.

The detectives and guards were  
sent away in an effort to avoid fur-  
ther trouble, but the miners organized  
and are searching for them. More  
trouble is expected.

TWO REAL ESTATE  
DEALS REPORTED

John W. Prugh, is announcing the  
sale of two residence properties be-  
longing to L. F. Dines at Columbus and  
Third streets to Rolla LeMar of The  
Western Ohio Creamery. One of the  
houses is the LeMar home.  
Mr. Prugh also sold the property  
of the late Mrs. Martha Borton on East  
Market street to Alexander Rice and  
Oliver Ward.

Sixty acres off the R. E. Bryson  
farm near Oldtown, was sold to H. C.  
Beatty. Mr. Beatty owns the adjoin-  
ing farm, and the purchase gives him  
a farm of 113 acres.

GAZETTE AND REPUBLICAN STRAW VOTE  
ON DAYLIGHT SAVING.

## TRUTH OF SINKING OF LUSITANIA COMES TO LIGHT IN GERMANY

### U-BOAT CAPTAIN NOT UNDER ANY SPECIFIC ORDERS

Log of Undersea Craft  
Tells Incident of  
Great War.

#### COMMANDER WRITES

Official Story Of Tragic  
Event Taken From  
Vessels Cabin.

#### U-BOAT COMMANDER TELLS OF HIS WORK

A photographic copy of the official log of Captain Lieutenant Schwieger, commander of the German submarine U-20, which sank the Lusitania, is today in possession of the International News Service.

The document, which describes one of the most tragic incidents in history shows that Schwieger was not under specific orders to sink the Lusitania. He was on his return to his base after an assignment to harass shipping off Liverpool when the Lusitania was encountered. Schwieger knew he was sinking a giant passenger liner, but he did not know it was the Lusitania until after the fatal shot was fired. Only one torpedo was launched and Schwieger described the emotion which prevented him from shooting again into the struggling mass of humanity. Schwieger's official log ranks as one of the most important papers in the history of the world's greatest war and is here revealed for the first time.

Berlin, March 23.—Like a voice from vaults of the dead, the official story of the destruction of the Lusitania—written on the historic afternoon of May 7, 1915, by the German submarine commander whose hand directed the fatal shot is here given to the world.

It is a terse, passionless document jotted down in brief sentences within the tiny cabin of a steel terror of the deep, by Captain Lieutenant Schwieger, who commanded the German U-20.

This arch fiend is dead, but his posthumous story:

HOW I SANK THE LUSITANIA.

exists in the archives of the German navy. It is written over his signature and the very lack of sentiment in the epochal narrative stands in weird contrast to the shock which the sinking of the Lusitania, with the loss of 1,195 lives, gave to civilization.

Schwieger, the log shows, had been ordered to the Irish sea to harass shipping off Liverpool.

On account of the vast network of submarines created by the British navy at North Channel he started to sail all the way around Ireland but his fuel ran short and he decided to discard his orders and return to his base. He had started back to Wilhelmshaven when he suddenly met the Lusitania.

The submarine commander was surprised to see a giant passenger liner steaming unhesitatingly eastward past the south coast of Ireland. Schwieger jotted down a criticism in his official diary. He thought it was bad management on the part of the British admiralty to let the great Cunard liner pass through St. George's channel instead of North Channel (between Ireland and Scotland).

It remained inexplicable why the Lusitania was not sent through the North Channel, wrote Schwieger in his log after the Lusitania had been sent to the bottom.

Schwieger told of his vigil at the periscope. The mighty liner is reflected in the water. It has four great funnels and is evidently one of the floating palaces of the Atlantic.

The U-20 submerges and plunges ahead at high speed to intercept the doomed ship. The submarine rises to see the greyhound steaming ahead at 22 sea miles an hour. There is a sharp command. A great "G" torpedo is fired at 700 meters range. It strikes. A gaping hole is torn in the proud liner on the starboard side behind the bridge. A terrific explosion follows. There is a second explosion and the debris with a spurt shot skyward. The ship begins to heel over. There is tremendous excitement on board. It appears that the officers have lost their heads. They cannot get their lifeboats launched. Another shot? Schwieger is tempted. But adds in his log:

"I couldn't have fired a second torpedo into this throng of humanity attempting to save themselves, any way."

## THE HOOVEN & ALLISON COMPANY INCREASES CAPITAL TO SIX MILLION

### SHERIFF ROUNDS UP GANG OF SIX ALLEGED HOBOS

Given Thirty Days In  
the Workhouse By the  
Court.

In the belief that some of a gang of six hobos which were picked up on the farm of I. T. Cummins on the Wilmington pike where they were camping Monday evening, might be part of the bunch of prisoners who escaped from the Dayton workhouse recently, Sheriff L. Funderburgh telephoned the superintendent of the institution, who came to this city last night.

While none of the prisoners of the number which had escaped from the workhouse, the Dayton official recognized two of them, James Davis, 50, and Ed Wilson, alias "Lucky" Koontz, 37, as men who had been in the Dayton workhouse repeatedly. Both were Dayton products, he said.

The men arraigned before Justice of the Peace J. E. Jones at 8 o'clock at night, and each fined \$10 and costs and given 30 days in the workhouse for camping on property without permission of the owner.

The other members of the gang gave their names as: James Martin, 36; Frank Carr, 43; Joseph Holland, 46; and three others who refused to give their names. They were arrested, and the ground in the vicinity was strewn with egg shells, and other remnants of meals. The gang had been camping on the Cummins farm for a day or so. Sheriff Funderburgh and Deputy Sheriff Birch arrested the sextette and brought them to Xenia about supper time. The officers believe that the gang was getting ready to commit some thefts or other crimes, and that their arrest before they had opportunity to carry out their plans was fortunate. Several of the gang were in Xenia Monday afternoon. All are large powerful men.

## DELAWARE SLATED TO BE THIRTY SIXTH SUFFRAGE STATE

Dover, Del., March 23.—Ratification of the woman suffrage amendment by the Delaware legislature seemed practically assured today, making the necessary 36 state ratifications to include the amendment as part of the federal constitution.

A caucus of republican members was summoned this morning and this was to be followed by the reading of a special message from Governor Townsend to both houses of the legislature in joint session urging the passage of the measure.

U. S. Senator Ball and Representative Layton were said to be "applying the party whip" to bring the ratification into line. A test vote was scheduled for this afternoon but it may be several days before final action is taken.

## BRADFUTE AND BRYSON TO ADDRESS MEETING

County Agent Ford S. Prince announces that the Hessian fly meeting which was to have been held last Tuesday at Bowersville, and which was postponed on account of rain will take place Thursday afternoon at 2 o'clock. The evening of the same day a Farm Bureau meeting will take place at 7:30 at Bowersville. Representative W. B. Bryson will be a speaker.

O. E. Bradfute, president of The Ohio Farm Bureau Federation, and Representative Bryson will speak at a Farm Bureau meeting which is to take place at New Jasper Friday night. Mr. Bradfute will talk on the National and State Farm Bureaus, and Mr. Bryson will discuss taxation.

## WAGE AGREEMENT BASED ON MAJORITY

Washington, March 23.—President Wilson today made public a letter which he has written to the coal miners and operators in which he declares that the majority of bituminous coal commissioner is the one upon which the new wage agreement between the miners and operators must be based.

The president urged that the miners and the operators meet in conference at the earliest possible moment and draw a new wage agreement based on the majority report in order that the public may no longer be worried over the question of coal shortage.

## Local Cordage Concern Issuing New Lot of Its Stock.

The Hooven & Allison Company, manufacturers of rope and cordage, and operators of three plants in Xenia, one in Covington, Ky., one in Cincinnati, and one in Kansas City, Mo., has increased its capital stock from \$1,500,000 to \$6,000,000, according to the announcement made by officials of the company here.

The rise in value of all materials that enter into the manufacture of cordage and the larger output provided by increased equipment, is given as the cause for the increase in stock by the directors. With the increase in capital stock the announcement is made that all present preferred stock will be retired and \$1,500,000 of new preferred stock issued. The unissued portion of the preferred stock will be held in the treasury and can be issued in the future if the needs of the business require it.

The issue of \$1,500,000 of preferred stock will be protected by \$750,000 worth of common stock, as well as a considerable surplus, according to the announcement of the Corporation. The present holders of preferred stock, whether holding the first issue known as "preferred" or the later issue known as "B preferred," will have the right to subscribe at par for an additional amount of the new "first preferred stock," equal in amount to not more than one half of their present holdings.

The increase in capital stock to \$6,000,000 tends further to popularize the slogan "spinners of fine cordage since 1869" and through the vast output of the Hooven & Allison Company to carry the name of Xenia further over the civilized world. The immense issue is a milestone in the progress of the company, which began the manufacture of cordage in a back street workshop in this city in 1869, and has since grown to be one of the largest concerns manufacturing cordage in the world today.

From the small workshop, where the product was turned out in a crude way, long "rope-walks" were built, where the cordage was made by hand, and from which the present name "rope-walks" is derived. Later improved machinery developed the business until all of the product is now machine made, operated by men and girls. The steady growth of the business over a half century of existence has necessitated the establishment of mills at North Kansas City, Cincinnati and Covington, and the large demand has been supplied by the establishment of branches and complete stocks in Minneapolis, Minn., New Orleans, La., Seattle, Wash., North Kansas City, Mo., Omaha, Neb., and Tulsa, Oklahoma.

## MINERS MAY QUIT MINES FOR DECISION ON NEW WAGE SCALE

New York, Mar. 23.—Negotiations for a new wage agreement for anthracite coal miners were virtually at a standstill, pending decision here today by the workers' general scale committee as to whether there is to be a suspension of work April 1, when the present agreement expires.

Sentiment of the miners, as interpreted by union leaders tonight, is unanimously in favor of a walkout, unless the mine operators agree to make any wage increase retroactive from April 1. The operators are reported opposed to such an agreement.

"Tomorrow will decide as to whether there will be peace or war in the anthracite industry," one union representative declared. "We hope to take definite action that will settle this part of the controversy."

Hope of speeding up the negotiations, which have been in progress here since March 9, and reaching a definite understanding on the miners' demands by April 1 has been virtually abandoned. Members of the sub-committee of miners and operators conducting the negotiations declare their deliberations probably will extend well into April.

## BRITISH SENTRY IS CHARGED WITH CRIME

Cork, Ireland, March 23.—An attempt to assassinate Professor Stockley, Sinn Fein Alderman of Cork, was made by a British sentryman last night, according to a declaration by Stockley today. This was the second attempt upon Stockley's life within a week. Stockley was on his way home when challenged by a British sentry. He was given permission to pass, but immediately afterwards lunged at the professor with his bayonet, but missed.

## PRICES OF SHOES TO FALL GREATLY

New York, March 23.—Prices of standard shoes will be reduced during the spring and summer, John J. Slater, president of the Retail Shoe Dealers' Association, announced today in a communication to Arthur Williams, federal food administration.

Retailers at a recent meeting, decided to be content with a smaller margin of profit, Slater said.

Reductions, however, will not apply to "all kinds of fancy and ultra-fashionable footwear."

The action of the retail shoe dealers, Mr. Williams said, probably presaged the beginning of a general narrowing of profit margins in other wearing apparel.

## VOTERS REGISTER OPINIONS ABOUT DAYLIGHT SAVING

Booths Placed in Different  
Parts of City  
Tuesday

### COUNT ON THURSDAY

Polls Will Close Thursday  
at 10 a. m.; Result  
Given Commission.

Here's where to vote  
Kearney Bros. grocery.  
Chambliss Bros. grocery.  
Davis grocery.  
Taylor grocery.  
East End Drug Store.  
Holmes grocery.  
Bradstreet grocery.

Many votes were received early Tuesday morning at the office of the Gazette and Republican in the straw vote being conducted by these papers on the "daylight saving" plan.

The votes received early were brought into the office and dropped into the ballot box kept there, while others were received through the mail during the day and put into the ballot box.

For the convenience of persons in the residential district of the city, the above voting places have been selected, where a ballot box will be maintained and votes can be handed in at any time up until Thursday when a collection of the votes will be made in order to present the results before the regular meeting of the City Commission Thursday night.

The fact that the cities within a radius of a few miles of Xenia have passed an ordinance advancing the clocks an hour, makes such action on the part of the city almost imperative. Confusion would be experienced by travelers from one city to another should Xenia retain the present form of time while Dayton and Springfield both observe the "hour more daylight" plan. It is pointed out that Xenians wishing to go to Dayton to a show at eight o'clock in the evening would have to leave at six o'clock.

City Manager Kenyon Riddle said Tuesday that he was thoroughly in favor of the plan for more daylight. The Manager said he would back any movement of the sort and while he did not know how the city commission felt on the question, that he was confident personally, that such a plan was necessary this summer.

While a wider expression of the opinions of the people could be obtained by continuing the voting longer, the ballot boxes will close Thursday at 10 a. m. in order to enable the votes to be counted and the results presented before the commission at Thursday night's meeting. This would insure thirty day action on the matter in case the ordinance is passed as an emergency measure and put into effect immediately on the day the time it will go into operation in Dayton. Such action would make the clocks go forward about April 25.

## COMMISSIONERS VOTE TO WIDEN OLD PIKE

The county commissioners yesterday granted a petition to widen the Springfield and Jamestown pike, between Clifton and Jamestown, from 40 to 50 feet. It was necessary to widen the pike before the state would join with the county in improving the road next summer, as the state will not enter a contract to improve a highway less than 50 feet in width.

Because of the refusal of one property owner abutting on the pike, to sign a waiver of the right to cause the matter to go through regular court proceedings, it was necessary for the commissioners to proceed before the case.

## AURORA BOREALIS DISPLAY IS CAUSE OF SPECULATION MONDAY

Nature Stages Electrical  
Feat Lighting Up the  
Heavens.

While Xenia people conjectured Monday night as to whether the skies were on fire or just how far the big searchlight at the Delco plant in Dayton, could throw a beam of light, the Aurora Borealis, commonly known as the Northern Lights, danced a lively skit across the heavens for the edification of the watching crowds below.

Incidentally Aurora played havoc with telegraph lines all over the country but the majority of Xenia people paid little attention to the antics of the illumination other than to make mundane remarks on the power of that

### R. B. ALICE DOUBLES MONDAY

While the Aurora Borealis was performing for the benefit of the many watchers in this city Monday night, Rory Bory Alice, was amusing the crowds at a local picture house.

Rory Bory Alice is the name of one of the characters in Mabel Norman's comedy "Jinx." People who were in the picture show and did not see the Northern Lights, at least did not miss seeing "Rory Bory Alice."

Delco searchlight. The opinion that the Delco light was responsible for the lights seemed to be general.

As a matter of fact the lights represented the March visit of Aurora Borealis, which is seen this far south only during the months of March and September. At these times, according to the explanation of scientists, the earth is directly over the spot area on the sun and this is thought to be partially the cause of the display Monday night.

The aurora assumed two forms, and both were visible to watchers here Monday night. One form is a series of light blades that move from left to right and up and down, while the other is a curtain-like formation from which small points of light emanate. The blades of light were visible a little west of north from this city, while the curtain formation hung across the northern skies toward the east. The curtain was continually moving and the electro-magnetic effect was beautiful.

The lights were visible between eight and ten o'clock.

## OHIO IN DANGER OF LOSING ITS LEAD IN STAMP SALES

Columbus, O., Mar. 23.—Ohio, for the first time in two years, stands in danger of losing its lead in the nation in the sale of war savings securities. Figures just issued at Washington show New York closely pressing the Buckeye state.

A call to arms for Ohioans was immediately sounded by State Savings Director H. P. Wolfe. "We shall never relinquish the lead," Wolfe declared. He announced plans for a "Beat New York" campaign to be launched immediately and to be conducted through April.

Ohio postmasters are to be asked to push the sale of \$100 treasury savings certificates, schools are to conduct a state-wide drive for the sale of war savings stamps, lodges are urged to purchase the limit amount of treasury savings certificates, and clubs throughout Ohio are to be asked to wage campaigns in their respective communities.

## CEDARVILLE LAD IS BADLY INJURED AS DYNAMITE EXPLODES

With his left arm, and the ends of the thumb and forefinger on his right hand lacerated from the explosion of a dynamite cap which he found while playing in a pile of rubbish, Martin Bates, eight year old son of Hayes Bates, Cedarville meat dealer, was brought to the McClellan Hospital. An X-ray examination disclosed about 50 pieces of the metal cap in the boy's arm and a few in his chest. No attempt was made to remove the bits of metal. The boy was given tetanus anti-toxin, and his condition was said to be favorable today.

The cap was of the kind used to explode fuses in blasting. It was two inches long, and was attached to a two cell battery, with wires. The child was trying to fasten it to his little wagon when it exploded. The bits of metal tore through a heavy overcoat the boy was wearing, penetrating the arm to a depth of from a quarter to half an inch.

## PRESIDENT ISSUES LETTER STATING NEW ATTITUDE

Increase To Workers Recommended In His  
Missive.

### PROFITEERING RAPPED

Warns Operators Against  
Gouging Public In All  
Prices.

Washington, Mar. 23.—President Wilson today issued an executive order suspending on April first all rules and regulations relative to the price of bituminous coal.

The president in his letter declared that on and after April 1 all government fixed prices on coal will be suspended and that no further efforts will be made to regulate prices, he gives warning, however, to the operators against profiteering. Because the report of the commission was not unanimous it had no power to fix prices, the president stated.

The majority report, which President Wilson supports recommends an increase of 24c a ton to tonnage workers. The 14 per cent increase granted by the fuel administration to be eliminated on March 31 and the new wage to be effective until March 31, 1922. The minority report concerns in this provision.

For day labor the majority report makes an award of an increase of \$1 a day for men and 53 cents a day for boys. The minority asked for an increase of \$1.35 a day for men and 75c a day for boys. Both reports agree to an increase of twenty per cent for yardage workers.

## LEADERS OF MINERS' UNIONS ARE HELD

Terre Haute, Ind., Mar. 23.—Ed. Stewart and William Mitch, president and secretary-treasurer respectively of district No. 11, United Mine Workers of America, were arrested here today by a U. S. marshal on a charge of conspiracy to enhance the price of coal.

The men were the first of the nine workers to be arrested following indictment by a special federal grand jury at Indianapolis.

Other men arrested here are: J. S. Biddle and Harold Henderson, attorneys for the mine workers; John Heiler, Robert Perry, John Little, F. McQuaid and Harry Lents, members of the executive board of district No. 11, and Will J. Freeman, Homer Tully, former president of the Indiana Bituminous Coal Operators' Association; George Watham, coal operator; M. L. Gould, J. C. Kolsep, Phil H. Penna, secretary of the Indiana Coal Operators' Association; Hugh Shirkie, A. M. Ogle, David Ingle, Charles Fetting and W. G. Hall. All are held under \$10,000 bond.

## TWO REAL ESTATE DEALS REPORTED

John W. Prugh, is announcing the sale of two residence properties belonging to I. F. Dines at Columbus and Third streets to Rolla LeMar of the Western Ohio Creamery. One of the houses is the LeMar home.

Mr. Prugh also sold the property of the late Mrs. Martha Borton on East Market street to Alexander Rice and Olice Ward.

Sixty acres off the R. E. Bryson farm near Oldtown, was sold to H. C. Beatty. Mr. Beatty owns the adjoining farm, and the purchase gives him a farm of 113 acres.

## HERE IS THE MODERN FORM OF THIEVERY

Columbus, O., Mar. 23.—Do you know what "modern social thefts" are?

They are: Dishonest taxation returns, extravagant living, emphasis on expert publicity rather than the quality of goods sold, unjust distribution of wealth by employers, and taking pay for time not put in by employees.

At least this is the judgment of Rev. Dr. Irvin Maurer, pastor of the First Congregational Church here. Now, what are "civic thefts?" Again the Rev. Dr. Maurer sheds light by explaining that the spending of public money and equipment by wasteful employees is one of the worst of civic thefts.

"The profiteer, too, is a thief, because he goes on the theory that he has a right to whatever he can get away from you," said the clergyman. "You can always tell by his use of an automobile whether the man driving it pays for the gas and tires," he said.

Thieving from corporations has attained alarming proportions, according to Rev. Dr. Maurer.

## DUCHESS OF MARLBOROUGH BEGINS SUIT FOR DIVORCE.

The announcement from London that the Duchess of Marlborough, formerly Miss Consuelo Vanderbilt, has taken preliminary steps toward obtaining a divorce from the Duke of Marlborough, caused little surprise in this country. The differences of the marlboroughs are of long standing and a definite move on the part of the Duchess for her marital freedom was expected. The announcement came shortly after the wedding of the Duchess' eldest son, the Marquis of Blandford, to Hon. Mary Cadogan. The Duchess is shown here from her latest photograph taken a few months ago. The Duke's photo is also a recent one.

## PARIS DOCTORS GIVE STRIKES SOME DOSE

Paris, March 23.—The doctors' union of the town of Monte-de-Marsan took sweet revenge on the union railwaymen during the recent general strike in France. When the government requisitioned all stores of gasoline because of the strike the doctors had to walk instead of motoring to keep their appointments. They therefore announced that they would not treat sick railwaymen except in the most urgent cases. The dentists joined the doctors and refused to give any aid to suffering strikers.

## SWISS FEAR THE ACTION OF PACIFISTS

Geneva, March 23.—Swiss military men fear that pacifist organizations, basing their arguments on the influence of the League of Nations in preventing future wars, will succeed in reducing the Swiss army to a condition of absolute impotency.

Colonel Sarasin, Colonel Feyler and Colonel Lecomte have written several articles protesting against any reduction in the strength of the Swiss forces and urging on the contrary, a reorganization designed to make the army more effective.

## ALLEN BARKER, BROTHERHOOD HEAD, RESIGNS

Washington, March 23.—Allen E. Barker, president of the United Brotherhood Maintenance of Way employees, has resigned, according to advices reaching labor headquarters here. It is said that Barker resigned because charges were made against his handling of the recently threatened strike of his organization.

Detroit, Mich., March 23.—Allen E. Barker, grand president of the United Brotherhood of Maintenance of Way employees and railway shop laborers today announced that he had resigned that position and that his resignation was accepted Saturday by the grand lodge officers. E. F. Grable, one of the grand vice presidents, is acting as grand president. Mr. Barker said: "Strain from overwork and the large responsibility attached to the office was given by Mr. Barker as the reason for his resignation. 'My health is poor and I have been in harness a long time,' he said. 'I expect to go west for some months. One thing is sure I will not again had enough of that and am glad to be relieved of the responsibility.'"

## PERFECTS SCHEME FOR WIRELESS TUNES

Atlanta, Ga., March 23.—Means of sending music by wireless has been devised by Sergeant Thomas Brass of the Georgia Teach signal unit Reserve Officers' Training Corps. A demonstration to the Atlanta Radio Club proved the success of his invention, which is epoch-making in wireless circles.

Sergeant Brass gave a concert by wireless telephone, probably the first in the history of that device. It was to the jazzy strains of "Dardanella" that the invention was first publicly tested. The invention necessitates the listener using a head set to hear, but Sergeant Brass is seeking to perfect an arrangement of sounding boards which will enable an audience assembled at a designated place to enjoy music from a distance without equipping themselves with individual trap-pings.

## NOSKE RESIGNS JOB AS WAR MINISTER

Berlin, March 23.—Gustav Noske, minister of defense, presented his resignation to President Ebert this afternoon and the president accepted it. Other cabinet changes are imminent.

It is announced that the independents today demanded a definite labor cabinet, and that the government is considering the demand. Berne, Switzerland, March 22.—The whole Ebert-Bauer cabinet probably will resign according to latest advices from Berlin.

The crisis has been brought by the great opposition aroused by the agreement with the trade unions, es-

pecially in the rural districts. The situation in the western industrial regions and in upper Silesia, particularly, Breslau, still is very serious the dispatch adds. The country populations, however, are calm everywhere. The peasants in Western Germany are preparing to cut off the food supply from the troubled industrial centers.

**STRAWBERRIES UNDER SNOWBANK IN COLORADO**  
Nuclea, Col., March 23.—Full grown strawberries under a snowbank in the Paradox Valley record claimed by George Sly, of this town who reports finding luscious berries as well as many blossoms on his ever-bearing strawberry plants under a drift of snow on his farm.

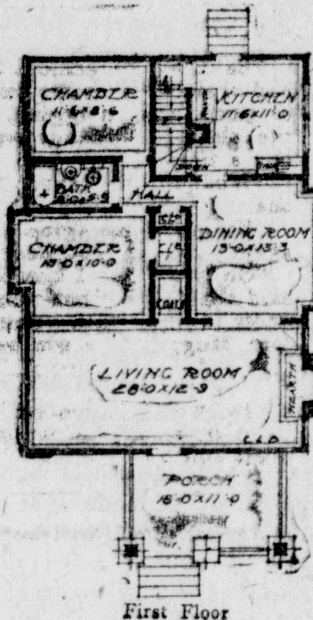

**UNEARTH'S MASTODON'S TOOTH**  
Alamosa, Col., March 23.—Claus Wiebers, of Del Norte, recently unearthed an enormous tooth in the hills near that town, believed to be the molar of a prehistoric mastodon that roamed the Rockies ages ago. The tooth is six inches long and well preserved.

## DUCHESS OF MARLBOROUGH BEGINS SUIT FOR DIVORCE.

Duke and Duchess of Marlborough INTERNATIONAL

The announcement from London that the Duchess of Marlborough, formerly Miss Consuelo Vanderbilt, has taken preliminary steps toward obtaining a divorce from the Duke of Marlborough, caused little surprise in this country. The differences of the marlboroughs are of long standing and a definite move on the part

of the Duchess for her marital freedom was expected. The announcement came shortly after the wedding of the Duchess' eldest son, the Marquis of Blandford, to Hon. Mary Cadogan. The Duchess is shown here from her latest photograph taken a few months ago. The Duke's photo is also a recent one.

## PARIS DOCTORS GIVE STRIKES SOME DOSE

Paris, March 23.—The doctor's union of the town of Mont-de-Marsan took sweet revenge on the union railwaymen during the recent general strike in France. When the government requisitioned all stores of gasoline because of the strike the doctors had to walk instead of motoring to keep their appointments. They therefore announced that they would not treat sick railwaymen except in the most urgent cases. The dentists joined the doctors and refused to give any aid to suffering strikers.

## SWISS FEAR THE ACTION OF PACIFISTS

Geneva, March 23.—Swiss military men fear that pacifist organizations, basing their arguments on the influence of the League of Nations in preventing future wars, will succeed in reducing the Swiss army to a condition of absolute impotency. Colonel Sarasin, Colonel Feyler and Colonel Lecomte have written several articles protesting against any reduction in the strength of the Swiss forces and urging on the contrary, a reorganization designed to make the army more effective.

## ALLEN BARKER, BROTHERHOOD HEAD, RESIGNS

Washington, March 23.—Allen E. Barker, president of the United Brotherhood Maintenance of Way employees, has resigned, according to advices reaching labor headquarters here. It is said that Barker resigned because charges were made against his handling of the recently threatened strike of his organization.

Detroit, Mich., March 23.—Allen E. Barker, grand president of the United Brotherhood of Maintenance of Way employees and railway shop laborers today announced that he had resigned that position and that his resignation was accepted Saturday by the grand lodge officers. E. F. Grable, one of the grand vice presidents, is acting as grand president, Mr. Barker said. Strain from overwork and the large responsibility attached to the office was given by Mr. Barker as the reason for his resignation. "My health is poor and I have been in harness a long time," he said. "I expect to go west for some months. One thing is sure I will not again had enough of that and am glad to be relieved of the responsibility." The position carries a salary of \$14,000 a year.

## PERFECTS SCHEME FOR WIRELESS TUNES

Atlanta, Ga., March 23.—Means of sending music by wireless has been devised by Sergeant Thomas Brass of the Georgia Teach signal unit Reserve Officers' Training Corps. A demonstration to the Atlanta Radio Club proved the success of his invention, which is epoch-making in wireless circles.

Sergeant Brass gave a concert by wireless telephone, probably the first in the history of that device. It was to the jazzy strains of "Dardanella" that the invention was first publicly tested. The invention necessitates the listener using a head set to hear, but Sergeant Brass is seeking to perfect an arrangement of sounding boards which will enable an audience assembled at a designated place to enjoy music from a distance without equipping themselves with individual trap-pings.

Dispatches from strife-torn Berlin bring the news that several important changes have been made in the Ebert Cabinet. Eugene Schiffer is reported to have been chosen as Chancellor by President Ebert in the new Cabinet. General von Seeht has been selected to replace Gustave Noske as Minister of Defense. General von Seeht was one of the German delegation who went to Paris to represent his nation at the Peace Conference.

James Watt, who was called to Xenia on account of account of the serious illness of Mrs. Robert Lytle, has returned home. Mrs. Watt remained at the Lytle home. Mrs. Lytle's condition remains critical.

## FIRE DEPARTMENT HOLDS PRESSURE TEST

Many people watched with interest the water pressure test conducted by the city fire department, on the court house lawn Monday afternoon.

With the engine pumper of the new White fire truck operating, the water was thrown in two streams as high as the tiling on the spire of the court house steeple. A little leakage at the connection of the hose at the hydrant curtailed the pressure, or the water could have been thrown higher.

The streams were thrown about twice as high as under ordinary city pressure.

## C. OF C. PLANNING MEMBERS' DRIVE

Plans for the membership drive to be conducted by the Chamber of Commerce were laid at a meeting of the membership committee Monday night.

The committee which is headed by Harold Owens as chairman, began working Tuesday. It is thought that there were a number of business men out of town and therefore unsolicited at the time of the organization of the Chamber, and it is the purpose of the committee to invite these men and others, who now may be interested in the body, to join.

The town councillors of Madville had organized a raffle for the benefit of poor Mrs. Muggins, and finally the oldest inhabitant was asked to buy a ticket.

"What for?" asked the ancient one.

"For Mrs. Muggins," replied the agent. "Didn't you hear?"

"Oh, yes, boss, I heered all right," said the fossil; "but what I want to know is—what am I goin' to do wiv Mrs. Muggins if I win her?"

"Pa, what is repartee?"

"It is, as a rule, an insult with a dress suit on, my son."

## TWO PLATOON FIRE SYSTEM IN OPERATION

In accordance with the new state law, the two platoon fire department

system was put in effect at the local fire department Tuesday morning.

Under the new system, the fire men work in 24 hour shifts, half of the force being off an entire 24 hours and the other half off the next 24 hours. While this cuts down the force at the fire house by half every day, it follows the requirements of the new law. The firemen off duty are naturally subject to call if needed.

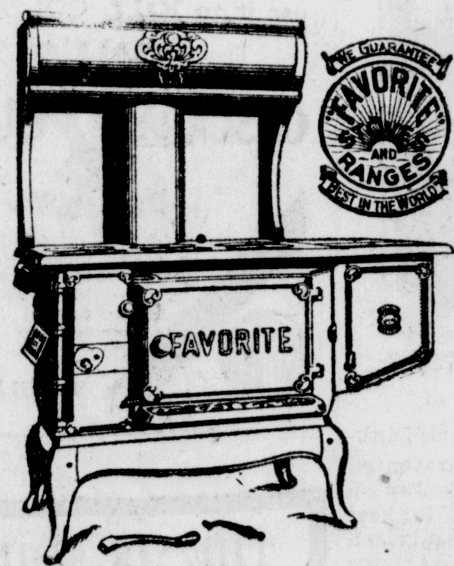

The new plan was put into effect Tuesday with Captain Mahanna and Fireman Ed Ellsbury off duty and with Firemen Aaron Turner and Carl Mendenhall at the house.

## COLBY SWORN IN.

Washington, March 23.—Bainbridge Colby was sworn in today as secretary of state. The oath was administered by Miles Shands, appointment clerk of the state department.

## TWO PLATOON FIRE SYSTEM IN OPERATION

In accordance with the new state law, the two platoon fire department

system was put in effect at the local fire department Tuesday morning.

Under the new system, the fire men work in 24 hour shifts, half of the force being off an entire 24 hours and the other half off the next 24 hours. While this cuts down the force at the fire house by half every day, it follows the requirements of the new law. The firemen off duty are naturally subject to call if needed.

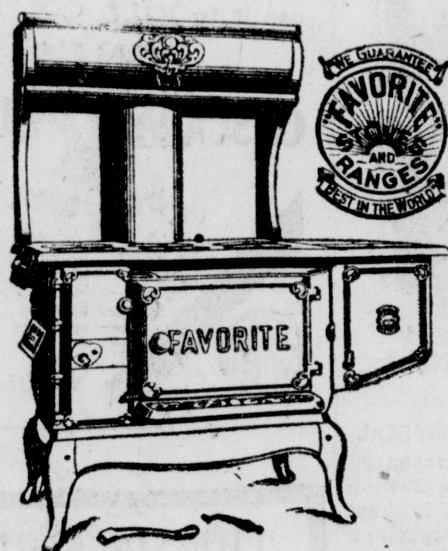

The new plan was put into effect Tuesday with Captain Mahanna and Fireman Ed Ellsbury off duty and with Firemen Aaron Turner and Carl Mendenhall at the house.

## TO THINK WE ARE ABLE TO DO A THING IS HALF THE BATTLE.

One reason why men practice generosity so little in the world is, there finding so little there. Generosity is catching, and it is so many persons escape it, it is in a great degree from the same reason that countrymen escape smallpox—because they meet with no one to give it to them.

Most people's experience of the world teaches them that in ninety-nine cases of a hundred, the safe and just side of a question is the generous and merciful side. Bunyan said: "A man there was, and they called him mad; the more he gave, the more he had." The truly generous is the truly wise, and he who loves not others, lives unblest.

It is claimed that in many sections of the old country the people of the United States have the reputation of being a great lot of "Money Grabbers." However this may be, we know that it is also a nation of great "Money Givers." The wonderful generosity of some of our very rich men, like Rockefeller and Carnegie, has not only brought wings of healing to millions of their fellow beings, with the prayer of God's blessing upon their heads, but has become the admiration of the world.

There is no denying the fact that our beloved country has helped give the opportunity to aspiring young men above that of some other nations. It seemed to be in the air to push forward—perhaps from seeing others do so. But the country does not make the opportunity. Every young man must make his own opportunity. He can commit no greater folly than to sit by the roadside waiting for some one to come along and invite him to ride to wealth or influence.

Do you know why some persons forge ahead and "get there" in the world's things worth having, while others, with equal ability, lag behind. We can tell you—the secret is Energy, with a big E. The difference between one man and another—between the weak and the forceful—is Energy—invisible determination—a purpose once formed and then every effort for victory. This quality will do anything that can be done in the world—and no talents, no circumstances, no opportunities, can be compared to this.

See a young man like John Wannamaker starting in business for himself. Selling a bill of goods, and finding no ready means of delivery, the story is current that he hitched himself in a wheelbarrow and the purchaser soon had the articles in his home. A sterling christian he has been all his life, and now in the eighties a great millionaire merchant, he stands the honored example of what righteousness and indomitable energy will do for any young man in this blessed country of ours.

## WILLIAM JENNINGS BRYAN HAS FIRM FAITH IN THE FINAL TRIUMPH OF EVERY RIGHTEOUS CAUSE.

Mr. Bryan made known his stand on public affairs in a speech at a dinner at the Aldine Club, N. Y., last Friday, arranged in celebration of his sixtieth birthday anniversary by friends and admirers of all parties.

After submitting "some conclusions drawn from thirty years of experiences in the arena of politics," Mr. Bryan said:

"Even in my youth I had no doubt of the final triumph of every righteous cause, and my faith is even greater now, since I have seen reform after reform accomplished and great principles, that were at first scoffed at, written into the unrepalable law of the land.

"No one has been happier than I in the character and constancy of his friends or more generously rewarded for labor in the political vineyard. My ambition is not to enjoy the honors of office, but to discharge as fully as I can the debt of gratitude I owe to the American people.

"I am aware that my place in history will not depend upon what others do for me, but upon what I am able to do for my country. If a kind Providence adds years to my life they will be spent in an earnest effort to aid in putting the American people in complete control of their government and to promote peace among all the nations, to the end that the conscience of our country and the world may more surely and more speedily overthrow injustice and establish among men the nearest possible approach to the divine measure of rewards."

"Just now the world is recovering from the most destructive war known to history. God grant that the lessons learned in the awful conflict may never be forgotten. We have learned at least one lesson, namely, that it is a mistake to require a two-thirds vote to ratify a treaty. A majority of Congress can declare war; it ought to be as easy to end a war as to begin it.

"The League of Nations, with our nation a member, is the highest tribunal that has been conceived by the mind and heart of man, and our nation's influence in the league should go far toward making war impossible by cultivating the spirit of brotherhood. Our nation's representatives in the league should be elected in districts by popular vote."

Among obstructions which Mr. Bryan said he had seen swept away were efforts of predatory wealth to prevent direct election of United States Senators by the people, efforts of the rich to prevent authorization of an income tax; efforts of powerful financial interests to stave off the coming of prohibition, and efforts to prevent enfranchisement of women.

"Woman's influence is needed just now to silence opposition to the prohibition amendment and to hasten the day of universal peace," said Mr. Bryan. "Woman's influence is needed throughout the world to oppose universal military training and provide for a referendum on war except in case of invasion."

## CLAIMS LITIGATION THREATENS CHURCH

Boston, Mar. 23.—Litigation is endangering the principles of Christian Science and threatens the destruction of the whole church structure, attorney C. F. Choate declared before Judge DeCourcy in the supreme court today, speaking in behalf of Mrs. Emily Hullin, of Brooklyn, N. Y., and other first members of the church.

They seek the right to intervene in the lawsuit between the directors and the trustees of the Christian Science Publishing Company.

Leading members of the church from Boston, New York and Washington were present. Scores of them could not get into the court room after standing in line for hours.

STILL HIGHER.

IT KEEPS us all deploring, lamenting, and the like; for prices still are soaring, each day they take a hike; I view the situation that now disturbs the nation, and in my agitation I breathe the name of Mike. A suit of wool, not shoddy, of handsome color tones, once clothed my shapely body, and cost me thirty bones; and it would hang together in every kind of weather, as trusty as the leather village saddler owns. But now a suit of shoddy my timeworn system feels; and it is punk and gaudy, and costs me eighty wheels; it shrinks when rain is raining, it splits when I am straining, and so I am complaining and raising frenzied spels. My shoes are made of paper, bedizened bright and smart, and when I waltz or caper the blamed things come apart; to wear them is exhausting, and oh, the price they're costing would put a layer of frosting upon the warmest heart. If things were worth the money, the prices we might greet with smiles serene and sunny, and not with frozen feet; but goods are made by pickers and prices set by hikers, and so I join the strikers and breathe the name of Pete.

## CHATTER

Three-year-old Agnes was watching mother remove the peeling

from an orange, and suddenly asked, very much concerned, "Mother, won't the poor thing catch cold?"

Governor Goodrich of Indiana said in a discussion of old Christmas customs:

"The old customs that have fallen out of use were a little too coarse and brutal for these ultra-refined times. Take, for instance, the old custom of serving a boar's head at the Christmas dinner.

"I know a rich man who thought he'd revive the old customs on Christmas, and accordingly a boar's head formed the dinner's seventh course. When the head was brought in on a great silver platter, a lemon in the mouth and the fierce eyes staring glassily straight ahead, the effect was tremendous.

"The rich man, serving slices of the head, came to the turn of his little son.

"Well, Willie, will you have some?" he said.

"Yes, papa," Willie answered in an awed whisper, "but please cut me off a piece where it isn't looking."

"Every day my favorite pupil used to bring me a beautiful red apple," remarked the woman who used to teach school.

"Splendid custom!" commented the student of educational systems. "If it were still in existence, the perquisites of a teacher might make increases of salary appear less urgent."

## TWENTY YEARS AGO

Washington C. H. Cyclone—Hon. Joseph G. Gest, postmaster of Washington C. H., has been confined to his bed since last Friday with pneumonia.

Messrs John Orr and Irvin Peterson, who have been attending Muskingum college, arrived home yesterday to spend the spring vacation, and will be here ten days or two weeks.

Mrs. Lucinda Shoemaker, who lives with her son O. W. Shoemaker, 700 South Detroit street, is probably the oldest woman in Xenia or Greene county, having reached her 99th birthday.

Baggage Master J. D. Beckett of Little Miami train No. 21, discovered a corpse of a young man in a trunk on his train, while in this city last night. This is the third corpse that has been found in trunks on trains between Columbus and South Lebanon lately. It is believed the work of medical students.

## WILL INVESTIGATE PRICE OF GASOLINE

Washington, March 23.—An investigation of the price of gasoline by the attorney general is authorized by a resolution introduced in the house today by Representative Dyer of Missouri. The recent sharp advance in the price of gasoline led to charges of profiteering made against the oil refiners and dealers in gasoline.

## Is It Yours?

This is the Birthday of Pierre La Place March 23 (?) 1749

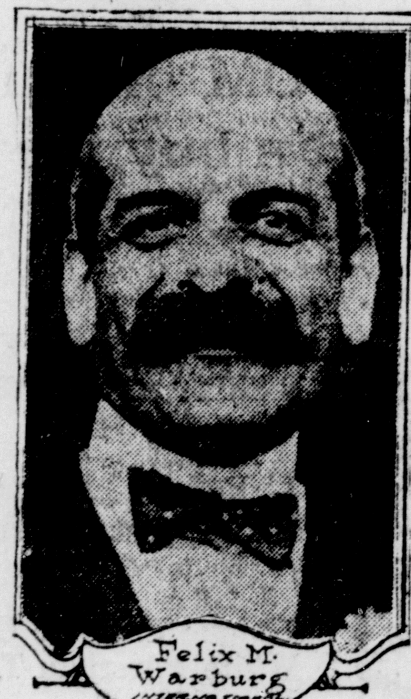

Pierre La Place, one of the greatest mathematicians and astronomers in the history of science, was born in Normandy in 1749. His father was a small farmer who could not afford to educate him, but La Place managed to pick up an education by himself. When he was 18, he went to Paris to seek his fortune, and wrote a letter on the principles of mechanics to a famous geometer which so impressed the great man that he had La Place appointed at once to one of the big schools.

His whole life from that time was a series of triumphs. He was not quite 24 when he published a scientific paper which earned him the title of "The Newton of France." He continued his studies of astronomy and wrote his valuable books on this subject in such a clean and concise way that even the layman could understand them. He attained worldwide celebrity and belonged to all kinds of societies.

During a flare-up of the revolutionary suspicion he was removed from some public office, but was immediately given new honors to make up for this, by the revolutionists who ruled France. When they fell, in turn, and Napoleon ruled, La Place continued to gain still greater honors.

Towards the end of his life, he retired to his country estate, where he entertained all the distinguished men of the world who came to visit him, and where he continued his scientific studies.

## Financier Presented With Highest Jewish Honor.

Felix M. Warburg, New York banker and financier, has been presented with the highest degree of the Jewish faith, "Haber." This is the highest honor ever accorded an American Jew. It was awarded Mr. Warburg by a delegation of rabbis from the First Hungarian Congregation, Ohab Zedek. The degree dates back to Talmudic times, and was presented to the financier in recognition of humanitarian services, performed during recent years. The last time the honor was conferred was upon Sir Moses Montefiore for saving the Jewish population of Damascus in 1848.

## COAL DUST LODGED IN MINER'S LUNGS

Tells how his cough was conquered and health restored.

"In November, 1916, I was working in a coal mine and the doctors said the coal dust had settled in my lungs. I couldn't lie down on my right side, coughed so I couldn't sleep and had constant pain in my right lung and under my shoulder blades. I coughed so hard the blood would spurt out of my nose. Finally the doctors had me change climate and live outdoors, but didn't improve.

"Then I came home and started on Milks Emulsion. Thank God, I did, as it did me a lot of good right from the start, loosening up the coal dust in my right lung. In a few weeks my lungs were free. I could sleep like a baby, had an excellent appetite and my cough left me entirely. I gained back 30 pounds in weight and went back to work in the mines completely restored to health."

G. H. Bunn, 6th Ave. & No. 13th St., Terre Haute, Ind.

Thousands of victims of dust-filled air, develop the same trouble that Mr. Bunn had. Milks Emulsion costs nothing to try, so why not at least try it?

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physic. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. It helps build flesh and strength, and is a powerful aid in resisting and repairing the effects of wasting diseases.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

Guaranteed by Savre & Hennrich.

## CLEVELAND CONCERN NOW REORGANIZED

Cleveland, O., March 23.—Reorganization of the Standard Parts company was announced late today following the first meeting of the new board of directors. The directors deferred payment of the April 1 dividend until the company's permanent financing has been completed.

J. O. Eaton was elected president and general manager.

Sale of the Central Development company of Cleveland, sale of the Flint, Mich., plant, and a satisfactory settlement of the \$1,400,000 suit brought by the Templar Motor corporation were announced.

Another announcement made today was that Cleveland interests close to the Grant Motor Car corporation had acquired control of the H. J. Walker company, manufacturers of automobile engines.

## EMERALD VALUES INCREASES 300 P. C.

London, March 23.—Diamonds are still going up, but emeralds are acquiring precousness even more faster than the engagement stone.

A will case here brought in many experts and revealed that diamonds have appreciated 160 percent in value in the past few years, while emeralds are up 30 percent.

## PULLMAN RATES UP.

Washington, Mar. 23.—The interstate commerce commission today granted the Pullman company permission to file a petition for an increase of 20 per cent in pullman car rates.

## OUT O' LUCK

Never mind! Just take Cascarets if Bilious, Constipated

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders and sick headache. But do not whip the bowels into activity with harsh cathartics.

What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colon and bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil, or Purgatives. Twenty five million boxes of Cascarets are sold each year. They work while you sleep. Cascarets cost so little too.

## Is It Yours?

This is the Birthday of Pierre La Place March 23 (?) 1749

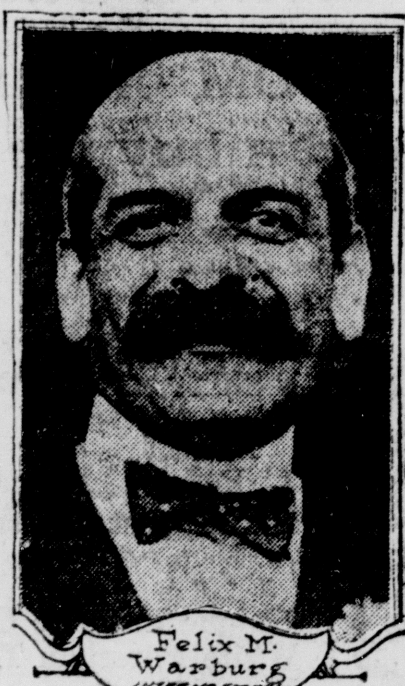

Pierre La Place, one of the greatest mathematicians and astronomers in the history of science, was born in Normandy in 1749. His father was a small farmer who could not afford to educate him, but La Place managed to pick up an education by himself. When he was 18, he went to Paris to seek his fortune, and wrote a letter on the principles of mechanics to a famous geometer which so impressed the great man that he had La Place appointed at once to one of the big schools.

His whole life from that time was a series of triumphs. He was not quite 24 when he published a scientific paper which earned him the title of "The Newton of France." He continued his studies of astronomy and wrote his valuable books on this subject in such a clean and concise way that even the layman could understand them. He attained worldwide celebrity and belonged to all kinds of societies.

During a flare-up of the revolutionary suspicion he was removed from some public office, but was immediately given new honors to make up for this, by the revolutionists who ruled France. When they fell, in turn, and Napoleon ruled, La Place continued to gain still greater honors.

Towards the end of his life, he retired to his country estate, where he entertained all the distinguished men of the world who came to visit him, and where he continued his scientific studies.

## Financier Presented With Highest Jewish Honor.

Felix M. Warburg, New York banker and financier, has been presented with the ancient degree of the Jewish faith, "Haber." This is the highest honor ever accorded an American Jew. It was awarded Mr. Warburg by a delegation of rabbis from the First Hungarian Congregation, Ohab Zedek. The degree dates back to Talmudic times, and was presented to the financier in recognition of humanitarian services, performed during recent years. The last time the honor was conferred was upon Sir Moses Montefiore for saving the Jewish population of Damascus in 1848.

## COAL DUST LODGED IN MINER'S LUNGS

Tells how his cough was conquered and health restored.

"In November, 1916, I was working in a coal mine and the doctors said the coal dust had settled in my lungs. I couldn't lie down on my right side, coughed so I couldn't sleep and had constant pain in my right lung and under my shoulder blades. I coughed so hard the blood would spurt out of my nose. Finally the doctors had me change climate and live outdoors, but didn't improve."

"Then I came home and started on Milks Emulsion. Thank God, I did, as it did me a lot of good right from the start, loosening up the coal dust in my right lung. In a few weeks my lungs were free. I could sleep like a baby, had an excellent appetite and my cough left me entirely. I gained back 30 pounds in weight and went back to work in the mines completely restored to health."

G. H. Bunn, 6th Ave. & No. 13th St., Terre Haute, Ind.

Thousands of victims of dust-filled air, develop the same trouble that Mr. Bunn had. Milks Emulsion costs nothing to try, so why not at least try it? Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. It helps build flesh and strength, and is a powerful aid in resisting and repairing the effects of wasting diseases.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

## OUT O' LUCK

Never mind! Just take Cascarets if Bilious, Constipated

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders and sick headache. But do not whip the bowels into activity with harsh cathartics.

What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colon and bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil, or Purgatives.

Twenty five million boxes of Cascarets are sold each year. They work while you sleep. Cascarets cost so little too.

Hi Myers. Dodger outfielder who has started in again like a whirlwind in driving in runs.

Br. NORMAN E. BROWN... In the first practice session staged by the Dodger regulars and Yankigans at Jacksonville in which Hi Myers took part, he drove in with his lustrous pat five of the nine runs the regulars collected.

Which leads Brooklyn rooters in particular and National league fans in general to wonder whether Myers is set to duplicate his feat of last season. In the 1919 campaign the Brooklyn center fielder led the league in driving in runs, chasing seventy-two runs over the plate with his wallop.

Myers led the Brooklyn regulars in hitting last season, compiling a .307 average in his sixth full year with the Superbas.

Hi is an Ohio boy, hailing from East Liverpool, where he was born April 27, 1898. He has been known to big league fans ever since the Dodgers bought him from Connellsville in the West Virginia league in 1909, his first year in the pro game. The Dodgers paid \$300 for him and although he traveled around in the minors considerably before landing a permanent berth in the majors the Dodgers kept a string on him so that his major league activities have been confined to Brooklyn. While gaining experience he played with Rochester, Sioux City, Mobile and Newark. The Dodgers decided at the beginning of the 1915 campaign that he was ripe to stick and called him back from Newark. He has been up ever since. He has always been an outfielder with the exception of a few games in 1917. He has always been a good fielder, but never broke in to the charmed circle of hitters until last season.

AMERICA IS TO HAVE BIG NAVY BY YEAR 1924

Chairman of the Naval Committee Makes Forecast.

Washington, March 23.—America's navy will about equal that of Great Britain in fighting power by 1924, Chairman Butler of the naval committee told the house today in defending the provision in the naval appropriation bill for continuing work on the 18 capital ships now under construction.

"In the next four years," said Mr. Butler, "the United States will put out the most formidable armada the world has ever seen produced in a similar period."

In 1924, he continued, Great Britain will have 60 battleships, the United States 47, France 26, Japan 15 and Italy 13. While England will have more ships, he added, those of the United States will be about equal in power.

Representative Kitchin of North Carolina, former Democratic leader, opposed big ship construction, saying that England, Russia, and France were not building "sea monsters."

"Shouldn't we get back to normal conditions and wait and see what the other powers will do before we go ahead with our big ships?" he asked.

"The league of nations may stop further big armament," Representative Butler said that until the other nations agree to curtail battleship building and "keep their agreement," he believed it was "our business to put our army and navy in such a condition as will protect the United States from all other nations."

Representative Mondell, the Republican leader, said that, considering foreign exchange values, the \$425,000,000 total of the proposed American naval appropriation exceeded the British estimate for the year by \$100,000,000.

BOLSHEVIK MONEY IS BEING PRINTED THROUGHOUT LAND

Berlin, March 22.—(Night)—Bolshevik money is being printed by the local soviets established in Mecklenburg and Pomerania, the foreign office announced tonight. Government troops are holding the towns in those districts, but the laborers are imitating the Russian bolsheviks and are seizing large estates.

Leipzig and Dresden are both controlled by government forces, it was announced.

The government claims that the backbone of the general strike has been broken. Workers of the middle class and many employees are returning to the factories.

The city was still without gas and water, however.

The situation in the Rhineland is most critical. The reds in Thuringia are strongly organized and threaten to give battle to any troops sent against them.

## AWAIT WORD OF TREATY ACTION FROM WILSON

Believe President Will First Notify Powers of Defeat.

Washington, Mar. 23.—In the absence of any authoritative prediction of what President Wilson would do with the ratified treaty with Germany, the impression gained weight today that the first step probably would be a notification to the other powers that ratification had been refused.

Diplomats pointed out that such a notification could be given to clarify the status of relations between the United States and the other powers, regardless of what decision the president might make later on the question of the treaty's resubmission to the senate or negotiation of a separate peace.

In some quarters it was predicted that Mr. Wilson might combine a notification of the treaty's failure with an announcement of his future purpose.

Senate leaders are understood to have been influenced in part by such a possibility in their decision to delay action on a declaration of peace, preferring to know first what the president will do. The peace declaration proposal may not come up on the floor for two weeks more.

Diplomats pointed out that the case has taken a different aspect since the adverse ratification votes in November. On that occasion the treaty was not sent back to the president and it was possible for him to preserve silence, as it was well enough understood that the pact, having been left with the senate, the initiative in further action was left wholly with that body.

The question of establishing a modus vivendi with the allies over clauses of the Versailles treaty in which the United States is inextricably bound by their interests, in case a separate peace with Germany is decided upon, is not believed to offer great difficulties.

If You Need A Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary trouble and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Gazette or Republican. Large and medium size bottles for sale at all drug stores.

## BAD BREATH Caused by Acid-Stomach

How can anyone with a sour, gassy stomach, who is constantly belching, has heartburn and suffers from indigestion have anything but a bad breath? All of these stomach disorders mean just one thing—Acid-Stomach.

EATONIC, the wonderful new stomach remedy in pleasant tasting tablet form that you eat like a bit of candy, brings quick relief from these stomach troubles. It sweetens the breath because it makes the stomach sweet, cool and comfortable. Try it for that nasty taste, congested throat and "head feeling" after too much smoking.

If neglected, Acid-Stomach may cause you a lot of serious trouble. It leads to nervousness, headaches, insomnia, melancholia, rheumatism, sciatica, heart trouble, ulcer and cancer of the stomach. It makes its millions of victims weak and miserable, listless, lacking in energy, all tired out. It often brings about chronic invalidism, premature old age, and shortening of one's days.

You need the help that EATONIC can give you if you are not feeling as strong and well as you should. You will be surprised to see how much better you will feel just as soon as you begin taking this wonderful stomach remedy. Get a big 50 cent box from your druggist today. # BEAUTY CHATS

Y. Y. Z.—You could set the color of your crepe de chine waist by soaking it in strong salt water and then washing it and rinsing until the color stops running.

You cannot permanently rid yourself of corns between the toes as long as you continue to wear the pointed toe shoes which you confess caused them. It is possible, however, for you to purchase round toe shoes that are neither ugly nor "tacky." If you wear anything smaller than a size six, you will find good looking models in the misses and growing girls departments, which are healthier than pointed toe shoes and to my mind much more beautiful. If it is any consolation to you, next year's shoe styles will show a more rounded toe than at present and in two years we shall be wearing them almost entirely.

Roy J.—Large ears are not, as you suggest, a sign of either selfishness or unselfishness. Nothing can be done to make large ears smaller, but if they stand out they can be bound flat and trained to lie against the head.

Mary N.—If you will follow the daily face treatment frequently given here, you will notice an improvement in your complexion. I would suggest that you let your nails grow longer

## Heart and Home Problems

Dear Mrs. Thompson: I am losing interest in school and do not get my lessons and I do not even study them. I am getting behind and if I don't get my lessons I cannot finish the eighth grade this year.

There is one boy whom I would like to have as a friend, but he is not going to school.

Please tell me what to do about my school work. I wish to be with my class as I used to be.

ANXIOUS ABOUT SCHOOL.

You are throwing away future happiness when you neglect your school work. A girl who is little schooling is not wanted in the business world for positions that pay a living wage. Such a girl cannot choose her friends; she is limited to people who, like herself, lack ambition. Many girls who are forced by necessity to leave school at an early age, study and improve their minds in leisure moments, and of course they advance. You must decide now whether or not you want to be ignorant.

Set aside a time every night to study and then concentrate on your school work. Will power is all that is needed. You can get back to your former position in the class and graduate if you will.

Dear Mrs. Thompson: I am a married woman and although my husband is three years my senior he does not seem like a man to me. He does not take the responsibilities of a man.

## ARPLANE PLUNGES TWO ARE DEAD

Grand Isle, Neb. March 22.—A passenger named Swanson was instantly killed and Pilot Frank Button fatally injured late Sunday when an airplane in which they were making exhibition flights took a full spanned crashed several hundred feet to the ground.

Button had recently served as a lieutenant in the army air aviation service.

## AMERICAN MADE PENCILS BIDDING FOR WORLD MARKETS GIVE RISE TO REVIEW OF THE HISTORY OF PRODUCT

In the old days the ancients carved their messages on slabs of stone, later cut them into wax tablets with a stylus, and still later adopted the pencil, which in its early stage was nothing more than a fine camel's hair or sable brush.

Today the vest pockets of the world contain the modern example of the pencil maker's art, displayed flagrantly to the sticky fingers of the multitude, with a nerve that would have shocked the tunir clad ancestors who were forced to go to great pains to secure their writing instruments.

Methods of producing black colored markings with rods of solid material on parchment, paper, wood and other smooth surfaces must have been known from time immemorial, but the first allusion to the present pencil occurs in a treatise on fossils by Conrad Gassner of Zurich in 1565, who describes an article for writing of wood and a piece of lead.

It was along about this time that the famous Borrowdale mine in Cumberland was discovered, and for years supplied the world its best lead pencils. The English pencil makers using the graphite in its purest form, based in Virginia cedar. During this time strenuous efforts were made on the Continent in England to render pencil manufacturers independent of the Cumberland supply.

The famous Faber family, whose pencils are well-known today, began the pencil making business in Nuremberg in 1761, the pencils being made from pulverized graphite cemented into solid blocks by means of gums, rosins, glue, sulphur and other such substances. The modern process of making pencils was devised by Conte of Paris about 1795 and he thereupon revolutionized the pencil making industry.

It is interesting to note that lead pencils are not made from lead but from graphite, which is a carbon, the same as a diamond, but not in as pure a state. There are now, but seven large manufacturers of pencils in the world. Four of these are in the United States and three in Germany. In the United States is the American Pencil Company, the Eagle Pencil Company, the Joseph Dixon Company and the Eberhard Faber Company. Faber being a descendant of the Faber family of Germany. Faber's brother, A. W. Faber has one of the German Pencil factories now and Johann Faber, another relative, another. The third German pencil factory is the Hardmuth factory in Austria.

Manufacturers of today use practically the same method as devised by Conte. They secure their graphite, some from Mexico and some from the United States, there being large mines in Pennsylvania. Chemists in the pencil factory treat the graphite with heat, taking out the impurities, and mixing it with clay. The amount of clay used fixes the hardness or softness of the lead, the more clay used the harder the pencil being.

The graphite when soft is plunged in continuous threads through small holes, thereby getting its shape. The threads are dried in a smooth board full of grooves, and are then cut into pencil lengths. Flawless cedar is used for the wood, which must be free of knots and straight grained. The grooves correspond with the size of the graphite threads are cut in a smooth cedar board, the graphite is slipped into the grooves, and a similar board, which has been likewise and correspondingly grooved, is laid over the top of it and glued together. The board is then cut between the leads after the boards are compressed together under terrific pressure, and are then shaped either round or hexagonal. Then all that remains is to stamp the pencil with the grade and the name and pack it.

Black pencils of inferior grade are made from the dust of graphite melted up with sulphur and run into molds. They are often softened with tallow. Indelible pencils are treated with a dye which is injected into the carbon.

Now, with Germany in uncertain state, American manufacturers are making a strenuous bid for the world trade in pencils and local concerns are having trouble meeting the demand. Yet, pencils, it is true, are one product on which the consumption cannot be increased.

## HOLD SERVICES

Funeral services for Mrs. F. M. Robinson were held at the home on North West street Monday afternoon, with the Rev. Charles E. Bennett officiating.

The Rev. and Mrs. H. C. Biddlecum sang two hymns. Interment was made in Woodland, and the casket was carried by the sons-in-law and brothers, Anson Stephens, Alonzo Anderson, Harry Randall, Eugene Foster and Otto Warner.

## PIPE EXPLODES; 3 DEAD

Roanoke, Va., March 23.—Three men were killed and eight to 12 injured by the explosion of an ammonia pipe at the Griggs Packing Co.'s plant and the resultant collapse of a four-story building. One body has been identified as that of Robert L. Carden of Roanoke.

## PREVENT COUGHS, COLD, GRIP OR INFLUENZA DEVELOPING INTO PNEUMONIA OR BRONCHITIS

Kill the Germs Before They Get Imbedded Into the Delicate Membrane of the Lungs or Bronchial Tubes.

For 50 cents you can get 3 ounces of Glando Pine, mix it with enough good syrup or strained honey to make a pint and you will have the best cough medicine you ever used. It can't be beat for coughs, colds, hoarseness, throat irritations or croup. Glando Pine relieves the spasmodic coughing in whooping cough. Children love to take it. To prevent a cold from developing into pneumonia or bronchitis, hold a teaspoonful of Glando Pine well back in the mouth or throat and take a few deep breaths before swallowing. You can feel the air cells opening up and you will breathe deep and easy.

Mrs. W. M. Fellers, of Lima, Ohio, says: "I took cold which developed into a severe cough. It hung on for several months. I coughed terribly especially at night. I lived in a flat and my neighbors, believing me to have tuberculosis, asked the owner of the flat to have me move out, which he did. I used different remedies, but found no relief until I used Glando Pine. The first dose seemed to help me. I began gaining flesh, and by the time I had used two bottles my cough was gone. Over 2 years have passed and my cough has not returned. I believe Glando Pine saved my life."

Glando Pine is manufactured by the Gland-Aid Co., Ft. Wayne, Ind.

## RATHER DARING IS THIS DANCE FROCK

Rather daring but striking is this debutante dance frock which was designed by Elizabeth Hines, the pretty little actress playing in "See Saw" this season. Whether it will be accepted by any other than professional women is doubtful. It is fashioned of cherry and silver striped brocade cut in one piece with draping to show the stripes in different directions. Tulle forms a yoke which takes the place of shoulder straps. It is flesh colored and quite startling in effect.

Rev. P. A. Nichols brought the remains of his son, Roscoe Nichols, which were buried several years ago in Danville, Ky., here and had them interred in Cherry Grove cemetery, this city.

## WORLD PROPAGANDA BEING PREPARED BY GERMAN OFFICIALS

Paris, March 23.—Germans are preparing a formidable world propaganda in favor of a revision of the Versailles treaty and the holding of a new international conference, at which vanquished nations might be represented, for the object of changing and eliminating many clauses of the present treaty between the allied nations and Germany, according to a Geneva dispatch. A book, entitled "The Greatest Crime of Humanity," has been prepared and 10,000,000 copies printed for free distribution, especially in America, England and France, and it is said that millions of other pamphlets along the same line will follow.

The reactionary revolt in Berlin on March 13 put a temporary stop to the movement, it is said.

Captain Andre Tardieu, one of the French delegates to the peace conference, has written an article, which appeared in the last week's edition of L'Illustration, in which he declared himself as being opposed to any revision of the treaty.

## STUDENTS' STRIKE ENDS

Clemson College, S. C., Mar. 23.—The strike of students at Clemson College ended today, all seniors, all except four juniors and 90 per cent of the sophomores and freshmen returning under an agreement with the board of trustees. Dissatisfaction with the mess and with secret trials for cadets were given as reasons for the students' walking out.

## OPPORTUNITY

5. To invest it at 5% interest with a strong savings institution
6. Like The Buckeye State Building & Loan Co., 22 West Gay St., Columbus, O.
7. All money deposited there is loaned on first mortgages on homes, the safest securities to be had.
8. The Buckeye solicits your business, offering you safety, courtesy and fair profits.

## SLOGAN CONTEST CLOSES AT HIGH

The slogan contest, which has been conducted among the students of Central High School, Lincoln and McKinley Junior High, to determine a slogan for the new high school campaign, has been closed and the slogans will be judged Tuesday afternoon.

A committee consisting of Secretary L. C. Tingley of the Chamber of Commerce, Rev. Albert Burke, pastor of the St. Brigid's Catholic church, R. E. Holmes, East End merchant and R. A. Higgins, of the Gazette and Republican, will judge the slogans. The judging will take place at the Chamber of Commerce at 4:30 o'clock.

## Edison Solves the Mystery of Music

Edison waves his wand,—and the secrets of nature and science reveal themselves.

Think of his inventions! Electric Light! Motion-Pictures! Phonograph! Each is founded upon his discovery of some mysterious secret of nature, some strange law of science.

People ask: "How is it possible for music to be literally RE-CREATED?" Yet Edison found out.

## The NEW EDISON

"The Phonograph with a Soul"

is in a class by itself, because, as Sigmund Spaeth, the distinguished New York music critic says: "Edison alone has mastered the secret of tone-color. This makes his record an artistic RE-CREATION instead of an imitation of something whose reality must be left largely to the imagination of the hearer."

Get those two words:—RE-CREATION and Imitation! Make this test. Some Edison artists have made records for other phonographs. Come in. We'll tell you who they are. We'll have the New Edison RE-CREATE their voices for you. Then you can go and hear the other phonographs give their versions of the same artists. Then you'll know,—the whole difference between music's RE-CREATION by The New Edison and its imitation by other phonographs.

J. J. If you live at home and are able to sew, I would advise you to purchase a dark coat and make yourself as many summer dresses as you can. Summer materials are so inexpensive that each dress need not cost you more than a few dollars.

I am working and when I started to work we made an agreement that I pay all the outside bills and he pay the rent, light and fuel bills. I have made every payment when it was due, but he is still back on all of his.

He doesn't work steady. He was laid off a little while ago from one place he worked. He said they were all out of the work he does, but I know it was because he is

so unsteady. He is working now, but he was off over a week from an injury he received while at work.

There isn't any fuel in the house and he depends on me to see that there is. I do not begrudge him the time off for his injury, but if he had been steady he would have had enough ahead for a rainy day. It isn't the thought of the money I have to give him, but of assuming his responsibilities. I do not want to leave him, but I do want him to be some one I can lean on rather than that he should lean on me. I get so tired of being both the man and the woman. We have one child.

**RESPONSIBLE.**  
You must never pay your husband's bills. If he realized that he would have to get the fuel on credit because you would not pay for it, he would do so, and later would stay at work because of pressing necessity. You must be as hard as iron in your refusal to meet his obligations.

The fact that you are working and managing your end so well makes him lean on you. Do not be his prop and he will have to stand alone. The next time he lays off, do so too, if possible. Tell him that unless he works steadily you will give up your position. It is asking too much that you should care for the housework and child and earn the living, too.

Dear Mrs. Thompson: I have been going with my friend for some little time. He is polite to me, but when on the street I speak to any of my friends he never tips his hat. I like him very much and would hate to hurt his feelings. How can I let him know that I feel mortified for I know they notice it?

**POLITENESS.**  
The only way to correct the boy is to tell him. This seems to me a minor offense and should not be taken too seriously. If he is courteous at heart and does the right thing when he knows about it, I would advise you to overlook this failing.

## AIRPLANE PLUNGES TWO ARE DEAD

Grand Isle, Neb., March 22.—A passenger named Swanson was instantly killed and Pilot Frank Button fatally injured late Sunday when an airplane in which they were making exhibition flights took a tail spin and crashed several hundred feet to the ground.

Button had recently served as a lieutenant in the army air aviation service.

# High School Notes

**J. H. Appie, president of Hood College for Women and girls of Frederickburg, Maryland, gave a short talk to the students at Central High School Monday morning.** Mr. Appie is at present on a leave of absence working for the Reformed church and he spoke at the local church on Sunday.

The speaker in opening, mentioned a previous visit he had made to the high school several years ago. He said that he had found it necessary in his travels to tell something of the story of Barbara Fritchie. He told the story as John G. Whittier had perpetuated it, and then proceeded to give the true account of the incidents as they really occurred. He said that Barbara had remained true to her flag and country, but that Stonewall Jackson did not pass her house as he made a detour. There was a private school at the time and the matron of the school had gathered her charges together and they were proudly waving the stars and stripes. They were repeatedly warned of their danger in so doing but would not desist. Finally Stonewall did appear before this group and attempted to persuade them to abandon their act of loyalty but she would not listen and finally he had to protect her against his own soldiers against his will. He managed to obtain the flag but another was quickly brought forth and the flag continued to be flaunted in the face of the Confederate army.

Mr. Appie made a plea for patriotism. He said that the days when patriotism is needed are not passed but that we need more now than was expected three years ago. The conflict is not over but like a fire the smoldering brands have scattered and now cover a large area. Battles are needed, continued the speaker, to win the battles of peace. Today there is a call for moral heroism and our young people of the present are the ones who will have to answer the summons.

Following Mr. Appie's address, Mr. Pendry made an announcement concerning the entertainment brought here Tuesday night by the Junior High and also announced the ringing of tarry bells at the beginning of every period.

## MRS. G. L. BRADLEY DIES ON TUESDAY

On the day of her fifteenth wedding anniversary, Mrs. G. L. Bradley, wife of George L. Bradley, died at her home on Lower Belmont street, at six o'clock Tuesday morning.

Pneumonia which developed from a bad cold was the cause of her death. She was taken ill last Wednesday and pneumonia developed Saturday night, since when her condition had been serious. She had planned to celebrate her fifteenth wedding anniversary Tuesday to the extent of preparing an invitation list and writing down her menu.

Mrs. Bradley was formerly Mary Jeanette Patterson and was born, January 24, 1872, in the Patterson homestead on the Columbus pike, two miles north east of Xenia. She was married to Mr. Bradley, March 23, 1905, and to this union, six children were born, two of whom died infancy. The surviving children are Frances Mary, aged 11; Ruth Harriet, 9; Esther Louise, 7 and Lois Jeanette, 5. Her parents are both dead, but she leaves the following brothers and sisters, Mrs. Harvey Drake, of Belle Center, Ohio, Mrs. Ernest Hutchison of near Yellow Springs, William B. Patterson of Dayton and James, who lives on the home place on the Columbus pike.

Mrs. Bradley was a member of Trinity M. E. church in this city and was much interested in church and religious work. Funeral services will be announced later.

## A Woman's Verdict

Tells of Suffering Greatly With Kidney and Bladder Trouble and How Balmwort Brought Relief.

## Her Letter Well Worth Reading

Mrs. Nellie McGinn 609 East 138th street, New York City writes: "For the last year I had suffered greatly from Kidney and Bladder trouble distressing pain in the back and hips with rheumatic twinges and frequent severe headache accompanied by nervousness, chills and fever; also a frequent desire to eliminate, a smarting burning sensation with pain in the region of the bladder, would frequently have to arise at night my sleep being disturbed by the pressure and inflammation in bladder. Beginning the use of Balmwort Tablets I noticed almost instant relief, and continuing to use them I am now totally well and relieved of all pain and distress from which I suffered. I am glad to recommend Balmwort Tablets as a reliable beneficial medicine and trust others may find relief and freedom from pain and distress as I did, etc."

The above letter is a true statement and is on file in our offices. Balmwort Tablets bring relief when other medicines have failed. Sold by leading druggists, \$1.00 per tube.

will be in Xenia at the GRAND HOTEL, FRIDAY, March 26. Hours 10:00 to 4:00. MRS. LINGERFIELD will be here in person.

## SURE SIGNS OF EYE STRAIN

Headache, Vertigo, Watery eyes, Glueing together of the eyelids on awakening in the morning. The headache is often replaced by inflammation of the eyelids, especially in young and healthy persons who also have a little conjunctivitis with a feeling of tension or fullness in the eyes which may become real pain of a dull aching character, the eyeballs being very tender on pressure.

Sometimes there are vertigo and sickness, with dyspepsia, palpitation and even difficulty in breathing. Sleeplessness is a very frequent symptom to the excessive flow of blood to the brain and in part to the low tone of the whole nervous system.

If you have any of the above symptoms, call on Mrs. Lingerfield for examination of eye, while she is in Xenia, Friday, March 19.

Lingerfield's Dayton Office is in Reibold Building, 611-612. Phones—Office 8599 Main Residence 2730 Main

## SHORT HEALTH TALKS To Men and Women Over 40.

Up until the age of 40 the average man or woman has maintained fair health. Nature has performed its work well with little or no assistance. After the fortieth milestone is passed the human machine does not run so smoothly. This is indicated by occasional headaches, bilious attacks, constipation, sour gassy stomach, pain in the right side and back of the right shoulder (which is liver trouble) backache and puffiness under the eyes, tell that the kidneys are breaking down. People over 40 will do well to heed any of the above symptoms. Diamonds can only be cut by diamonds; likewise nature can only be assisted by nature. To truly relieve, correct and regulate the human system no preparation in the world today is as effective and powerful as Bulgarian Blood Tea. These medicinal herbs when brewed, give to you the rich juices that Mother Nature intended for her sick children. For a few cents you can obtain Bulgarian Blood Tea from your druggist.

## The Hoeven & Allison Co. Notice To Stockholders.

Notice is hereby that a special meeting of the stockholders of the HOEVEN & ALLISON COMPANY will be held at its office, 2100 Broadway, New York City, on the 21st day of April, 1920, at two o'clock P. M., for the purpose of considering and acting upon the following:

(1) To increase its capital stock from One Million Five Hundred Thousand Dollars (\$1,500,000.00) to Six Million Dollars (\$6,000,000.00), par value, or such amount as the stockholders may determine, so as to provide an authorized preferred capital stock Four Million Dollars (\$4,000,000.00) and an authorized common stock of Two Million Dollars (\$2,000,000.00) or such amounts as the stockholders may determine.

(2) To amend the Articles of Incorporation by eliminating the restrictions and preferences as to the present preferred stock and B. preferred stock, and to provide for a preferred stock of Four Million Dollars (\$4,000,000.00) having the following restrictions, preferences and safeguards or such other restrictions, preferences and safeguards as the stockholders may determine, to wit:

The holders of the first preferred capital stock shall be entitled to receive dividends on the company stock, as and when declared by the Board of Directors, pay out of the surplus earnings of the company, in preference to and in priority over any dividends on the common stock, a fixed yearly cumulative dividend on each first preferred stock, at the rate of seven per centum (7 per cent) per annum, but no more payable quarterly on the first day of March, June, September and December of each year, from and after the date of issue of such stock; preferred stock; such dividends shall be cumulative so that any deficiency in the dividend to be paid upon the first preferred stock shall be made good out of the earnings of subsequent years, and before any dividend shall be paid on the common stock; but the first preferred stock shall be entitled to any dividend in excess of seven per centum (7 per cent) per annum, and the arrears thereof, and shall not participate further in the profits of the company.

The term "first preferred stock" or "first preferred capital stock" when used in this certificate means, unless otherwise stated, the first preferred capital stock of the issue authorized by this certificate.

In case of liquidation or dissolution or winding up of the company, or a sale of all its assets, whether voluntary or involuntary, or in event of its dissolution or upon any distribution of its assets, then before any amount shall be paid to the holders of the common stock, the holders of the first preferred stock shall be entitled to be paid the par value of their shares and all dividends in arrears and unpaid thereon, but shall not participate further in the distribution of the assets of the company.

The company may redeem this stock in whole or in part upon thirty (30) days' notice mailed to the address of days' notice as shown on the books of the company, at any dividend period after January 1, 1922, at one hundred and five per centum (105 per cent) of the par value and accrued dividends. On the date fixed for redemption in any such notice, the company shall pay the redemption price, as aforesaid, of such stock upon the presentation of the respective certificates evidencing the same to the stockholder whose redemption is so called, or any portion thereof, is so called, for redemption, shall not present on the date and at the place thereof for redemption, such portion of its stock as shall be so called, shall thereafter cease to bear dividends at any time or times decide to redeem this stock in part only, as above provided, the portion of shares for redemption shall be by lot and shall be accomplished by placing together the names of all holders of outstanding shares of first preferred stock of the shares held set forth under the name of the holder, and these names shall be drawn singly in the names shall be drawn singly in the presence of witnesses in such manner as shall be provided by the Board of Directors. The entire amount of stock standing in each name thus drawn shall be called for redemption before any other name is drawn. In each case in which the company calls first preferred stock for redemption, it shall

give notice to each stockholder, whose stock is to be redeemed, stating the time and place of redemption, and the amount of stock so to be redeemed, and the redemption price thereof, by registered letter deposited in some postoffice in the United States, postage prepaid, at least thirty (30) days prior to the dividend date upon which stock is to be redeemed, which letter shall be addressed to such stockholder at his address appearing on the books of the company.

The company shall not mortgage or otherwise encumber its lands, buildings, furniture, fixtures or machinery, or make or deliver any instrument in writing purporting to do so. Provided, however, the company may give purchase money mortgage for additional real estate, plant or machinery.

(3) To consider all resolutions giving the directors of the company the right to sell, exchange, or otherwise dispose of the common and preferred stock in such manner as the directors may deem wise and proper in accordance with the law.

(4) To consider amendments, if necessary, to the Rules and Regulations of the Company.

(5) To do any and all such other things as may be necessary or expedient to consummate the foregoing, and for the transaction of any and all business necessary or incident thereto that may properly come before the meeting of stockholders.

## HERBERT HOOVER WRITES LETTER TO PRESIDENT

An excerpt of a letter written the president by Herbert Hoover about the League of Nations Covenant dated April 11, 1919, and which recently appeared in print in the Philadelphia Ledger, was given editorially in The Gazette and Republican a few days ago.

The balance of the letter which is a stirring protestation against getting mixed up in European affairs appears below:

April 11, 1919.  
Dear Mr. President—Your economic group has had before it the question of whether the United States should continue membership in the various commissions set up under the peace treaty. I should like to lay before you my own views on this subject.

I feel strongly that any continuation of the United States in such an allied relationship can only lead to vast difficulty and would militate against the efficiency of the League of Nations. My reasons are as follows:

First. These commissions are primarily to secure the enforcement of reparations and other conditions imposed upon the Central Empires. As the United States is not calling for any form of reparation that requires continued enforcement, our presence on these commissions would appear to be for one of the following purposes:

(a) To give moral and political support to the Allied Governments in measures generally for their benefit. It cannot be conceived that in the prostrate condition of the enemy that the Allies will require any physical assistance or the enforcement of their demands. In this event, the United States will be lending itself to the political and financial interests of other governments during peace, a situation that must be entirely repulsive to our national interests, traditions and ideals.

(b) Another objective might be that we should remain in these commissions with a view to securing justice and moderation in the demands of the Allies against the Central Empires. We would thus be thrust into the repulsive position of the defender of our late enemy in order to secure what we would conceive to be constructive and statesmanlike rehabilitation in Europe. Our experience during the last three months has shown us bitterly that we thus subject ourselves to complaint and attack from the allied governments and such a continued relationship should only breed the most acute international friction.

Second. If our experience in the last four months counts for anything, the practical result always is that the allied governments, knowing our disposition necessarily ask for more than they expect to get, and that we find ourselves psychologically and, in fact, politically on the side of the enemy in these negotiations, and in a con-

stant desire to find practical working formula we are frequently forced to abandon some measure of what we consider sane statesmanship. The continuation of this relationship will bind us for a long period of years to a succession of compromises fundamentally at variance with our national convictions. I am not attempting to dispute the righteousness of any allied demand but merely to set up the fact that our viewpoint is so essentially different. One other practical result of our experience already is that the Americans who sit on such commissions, if they don't acquiesce and assist in enforcing any propositions from various government officials, become immediately and personally subject to attack as being inimical to their interests and with the powerful engines of propaganda which they employ in Europe and our own country no such man can endure for long. These governments, if they faced with the sole responsibility for their actions, would not attempt the measures which they seek under our protection.

Therefore, for all reasons, I do not see that we can effect any real justice in these matters.

Third. If we continue to sit in the enforcement of this peace we will be in effect participating in an armed alliance in Europe, where every change in the political wind will affect the action of these commissions. We will be obliged to participate in all European questions and we will be firmly tied definitely to one side, unless we precipitate a break and lend ourselves to the charge that we have been traitors to the "common cause."

Fourth. This whole matter has a very practical relationship to the League of Nations. If we can bring to an early end our whole relationship to these political combinations in Europe, which grew up before and during the war, and can lend our strength to the League of Nations, that body will gain a stability and importance which it could not otherwise attain. As the Central Empires and Russia will not be for some years admitted to the league and if we continue in what is in effect an armed alliance in Europe dominating these empires,

the league will become simply a few neutrals gravitating around this armed alliance. It will tend to drive the Central Empires and Russia into an independent league. If on the other hand we can again secure independence we can make of the league that strong and independent court of appeal that will have authority.

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

**MRS. G. L. BRADLEY**  
**DIES ON TUESDAY**  
On the day of her 51st birthday, Mrs. G. L. Bradley died at her home, 1115 N. 1st St., at 10:15 o'clock Tuesday morning.  
Pneumonia which developed from a cold was the cause of her death. She was taken ill last Wednesday and pneumonia developed Saturday night, when her condition had been serious. She had planned to celebrate her fifteenth wedding anniversary Tuesday to the extent of preparing an invitation list and writing down her menu.  
Mrs. Bradley was formerly Mary Jeanette Patterson and was born, January 24, 1872, in the Patterson household on the Columbus Pike, two miles north east of Xenia. She was married to Mr. Bradley, March 23, 1905, and to this union, six children were born, two of whom died in infancy. The surviving children are Frances Mary, aged 11, Ruth Harriet, 9, Esther Louise, 7 and Lois Janette, 5. Her parents are both dead, but she leaves her following brothers and sisters, Mrs. Harvey Drake, of Belle Center, Ohio; Mrs. Ernest Hutchison of near Yellow Springs; William B. Patterson of Dayton and James, who lives on the home place on the Columbus Pike.  
Mrs. Bradley was a member of Trinity M. E. church in this city and was much interested in church and religious work. Funeral services will be announced later.

**Tells of Suffering Greatly With Kidney and Bladder Trouble and How Balmwort Brought Relief.**  
**Her Letter Well Worth Reading**  
Mrs. Nellie McGinn 609 East 138th street, New York City writes:  
"For the last year I had suffered greatly from kidney and bladder trouble distressing pain in the back and hips with rheumatic twinges and frequent severe headache accompanied by nervousness, chills and fever; also a frequent desire to eliminate, a smarting burning sensation with pain in the region of the bladder. I would frequently have to arise at night my sleep being disturbed by the pressure and inflammation in the bladder. Beginning the use of Balmwort Tablets I noticed almost instant relief, and continuing to use them I am now totally well and relieved of all pain and distress from which I suffered. I am glad to recommend Balmwort Tablets as a reliable beneficial medicine and trust others may find relief and freedom from pain and distress as I did, etc."  
The above letter is a true statement and is on file in our offices. Balmwort Tablets bring relief when other medicines have failed. Sold by leading druggists, \$1.00 per tube.

will be in Xenia at the GRAND HOTEL, FRIDAY, March 26  
Hours 10:00 to 4:00.  
**MRS. LINGERFIELD**  
will be here in person.  
**SURE SIGNS OF EYE STRAIN**  
Headache, Vertigo, Watering of the Eye, Glueing together of the Eyelids, The headache is often replaced by inflammation of the eyelids, especially in young and healthy persons who also have a little conjunctivitis with a feeling of tension or fullness in the eyes which may become real signs of a dull aching character, the eyeballs being very tender on pressure.  
Sometimes there are vertigo and sickness, with dyspepsia, palpitation, and even difficulty in breathing. Sleeplessness is a very frequent symptom to the excessive flow of blood to the brain and in part to the low tone of the whole nervous system.  
If you have any of the above symptoms, call on Mrs. Lingerfield for examination of eye, while she is in Xenia, Friday, March 19.

**BE PRETTY! URM GRAY HAIR DARK**  
Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.  
Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which was messy and troublesome. Nowadays, by asking at any drug store for "Wyneth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.  
Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.  
Wyneth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

**The Hoeven & Allison Co. Notice To Stockholders.**  
Notice is hereby that a special meeting of the stockholders of the HOEVEN & ALLISON CO. will be held at its office, 1115 N. 1st St., Xenia, Ohio, on the 21st day of April, 1920, at 10 o'clock A. M. for the purpose of considering and acting upon the following:  
(1) To increase its capital stock from One Million Five Hundred Thousand Dollars (\$1,500,000.00) to Six Million Dollars (\$6,000,000.00), par value, or such amount as the stockholders may determine, as to provide an authorized preferred capital stock Four Million Dollars (\$4,000,000.00) and an authorized common stock of Two Million Dollars (\$2,000,000.00) or such amount as the stockholders may determine.  
(2) To amend the Articles of Incorporation by eliminating the restrictions and preferences as to the present preferred stock and to provide for a preferred stock of Four Million Dollars (\$4,000,000.00) having the following restrictions, preferences and safeguards or such other restrictions, preferences and safeguards as the stockholders may determine, to-wit:  
The holders of the first preferred capital stock shall be entitled to receive and the company shall, as and when declared by the Board of Directors, pay out of the surplus earnings of the company, in preference to and in priority over, any dividend on the common stock, a fixed yearly cumulative dividend on such first preferred stock, at the rate of seven per centum (7 per cent) per annum, but no more, payable quarterly on the first day of March, June, September and December each year, from and after the date of issue of such first preferred stock; such dividends shall be cumulative, so that the stockholders in the dividend to be paid upon the first preferred stock shall be made good out of the earnings of subsequent years, and before any dividend is paid on the common stock; but the first preferred stock shall not be entitled to any dividend in excess of seven per centum (7 per cent) per annum, and the arrears thereof, and shall not participate any further in the profits of the company.  
The term "first preferred stock" or "first preferred capital stock," wherever used in this certificate means, unless otherwise stated, the first preferred capital stock of the issue authorized by this certificate.

**TAKE PEPSINCO**  
**The best remedy for indigestion that ever came out of a drug store**  
You know that pepsin is good for indigestion but pepsin could never do what PEPSINCO will. We have dealt in medicines long enough to know the various uses and value. We unhesitatingly say that PEPSINCO is the best remedy for indigestion, gas, flatulency, food distress, sour stomach and pains under the ribs, that ever came out of a drug store. Sufferers of indigestion and dyspepsia will do well to take PEPSINCO.  
**Ask your druggist—he sells and recommends Pepsinco.**

**URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY**  
Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.  
**Says: Inflamed Nostrils Invite Influenza**  
People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.  
He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.  
If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arctine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.  
Ask for three-quarters of an ounce of Mentholized Arctine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.  
The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.  
Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

**When You Know**  
you have a heart, it is time to watch your stomach. Palpitation and other signs of "heart trouble" usually mean—indigestion, produced by food poisons that irritate every part of the body—heart included.

**PIMPLY? WELL, DON'T BE**  
People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets  
A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.  
Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.  
Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.  
No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.  
Olive Tablets are a purely vegetable compound mixed with olive oil, so you will know them by their olive color.  
Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 10c and 25c.

**MUSTEROLE—QUICK RELIEF! NO BLISTER!**  
It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting  
Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!  
Many doctors and nurses use Musterole and recommend it to their patients.  
They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (often prevents pneumonia). 30c and 60c jars; a hospital size \$2.50.

## BELIEVE BEGINNING OF OUTLAW GANG IN IRELAND BEGUN

London, March 22.—The assassination of Thomas Mac Curtain, Lord Mayor of Cork, is believed by Sinn Fein officers to mark the opening of a political vendetta by a gang of desperadoes.

The Sunday Pictorial states the belief is widespread in Ireland that this organization is composed of men who have taken oath to avenge outrages committed by Sinn Fein members and who are determined "to exact an eye for an eye and a tooth for a tooth."

The Sunday Express supports this view, pointing out that early in March four armed men raided the Cork hospital, robbed the nurses—all ardent Sinn Feiners—of money, watches and jewels and then retreated, after having compelled the women to sing "God Save the King." The Express says editorially:

"It is evident that the Sinn Fein is losing control of the dark forces working below the surface. Therefore, not an hour must be lost if the fabric of Irish society is to be conserved. It is tottering like Messina in the throes of the earthquake, endangering life and the property from the Giants causway to Cape Clair."

## MEXICAN OPENS RACE FOR POSITION

Mexico City, March 21.—(Delayed) Ygnacio Bonillas, Mexican ambassador to the United States arrived today from Washington and opened his campaign for the presidency. Nearly 50,000 persons gathered at the Colonia station and welcomed Bonillas with cheers. The ambassador made a speech, saying he had accepted the presidential candidacy and if elected will "do everything possible to maintain and keep the friendship of foreign governments."

## ALUMNI ASSOCIATION GAINING HEADWAY

The Central High School Alumni "X" Association appears to be a go, as the result of conferences held among alumni of the school who have won their letter in some branch of sport.

For the purpose of further propagating the Association and effecting a temporary organization, a meeting will be held in the Chamber of Commerce rooms next Monday evening at 7:30 o'clock, to which all High School letter men, now graduated, are invited. Letter men now in school will be excluded until after they have become alumni.

It is understood that prior to 1902 there was no athletic association, and the letter "X" was not given before that time to those who participated

## PASTRY HINTS

What Makes Bakers' Pies so brown on top? Milk brushed over crust with a small brush will give your pies the same appearance.

The Crystal Drops on the meringue of pies? Just before returning to oven to brown, sprinkle a little sugar over it.

The Edges of their pies, so smooth and never any juice seeping out? After forming first crust in your pie pan dip the fingers in water and moisten the edge, then add second crust and press together with the palms of the hands, instead of fingers or fork, until dough falls away from the edge.

Names and Odd Figures on cake with "icing" so even? Take a piece of brown paper four inches square, form into a funnel, clip off the point into a V shape. Fill funnel with icing and squeeze out over cake in any form desired.

To Remove Cake From Pan—If cake sticks to pan and threatens to break to pieces when you take it out, turn the pan upside down and lay on the bottom of it a cloth wrung out of cold water. About five minutes after

the cake can be removed without crumbling to pieces.

When Making Crust for pies mix up quite a quantity at a time two or three days before using; that is, the flour, salt and shortening. This will keep indefinitely in a covered crock and with only the addition of water, it is always ready for use. Crust made in this manner is ever so much nicer, being invariably tender and flaky.

## FOR THE TABLE

Pork Chops and Dressing—Use as many chops as you need for your family. Make dressing of stale bread, minced onion, two tablespoons of lard, salt, pepper and one egg. Mix all well together.

Take half of the chops and put a good layer of dressing on each one, then place the other chops on the dressing.

Put two tablespoons of drippings in roaster, lay in chops and roast as you would chicken, one pint of boiling water being put in roaster when put in oven. Baste often.

These are fine and could be good for a holiday dinner where no chicken or turkey is to be used.

Economy Cake—One tablespoon lard or butter substitute (rounded), one cup sugar, one-quarter teaspoon salt.

Mix well, add one egg and beat; then add one cup water, one teaspoon vanilla. Mix three cups flour, two level teaspoons baking powder and ad to mixture.

If batter is too thin add more flour and beat at least five minutes.

Molasses Drop Cookies—One cup molasses, one-half cup lard or drippings, one-third cup boiling water, one teaspoon soda, salt, cinnamon and ginger to taste.

Add flour till almost stiff enough to roll out. Flatten spoonful on a greased tin, leaving room to spread. Bake in a moderate oven.

## THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

A MODERN STORY OF HOME AND BUSINESS

## A SURPRISE

Chapter 84.

Robert was at home. He sat by the window, but I could see he had not been watching for me, but had been engrossed by his thoughts.

"Come on, Robert!" I cried, gayly. "We will hurry with our dinner—then I have a surprise for you."

He got up immediately, but showed no interest. Neither did he ask any questions.

We had dinner at a nearby restaurant. When we returned to the house, I said:

"Help me pack up, Robert. I am going to take a vacation."

"You need it. Where will you go?" His tone was so cool, so indifferent, it brought the tears to my eyes.

"Not far! And you are going with me."

"Don't talk nonsense, Gerry!" He shrugged his shoulders impatiently as he turned away and walked over to the window. "You know very well I can take no vacation."

"I don't want you to! You'll have to hustle all the harder to give me mine." I remembered what Mary had said. I would make him feel responsible.

"Kindly tell me what you are talking about, and what you intend to do?" I had dragged a heavy suit case from the closet. That would be all we need take. I could get the rest of our things the next day. It would be all I would have to do.

"Robert, we are going to be babes in the wood. Mary is going to lend us the woods. We are the babes. If

you get chronic indigestion, don't blame me. I'll try not to poison you, but that's all I can promise."

"You mean—?" a gleam of interest had come into his eyes.

"I mean that Mary Ryan can't let Gardner come often enough to suit him because she is alone. She offered to swap her flat for our quarters for a month. I left Madame this afternoon. We'll have another honeymoon, dear." I was so near crying I had to keep on talking to hide my feeling from him.

"Honest, Gerry? You're not fooling?" There was a lilt in his voice I had not heard in weeks. Then in the old tired tone. "But it's too late now. If we could have done this when I was with Calding, we could have had a heap of fun—had the Weeds and Murphys for eats, and had a good time generally. Now we can't afford it."

"We will afford it somehow." Now that I had decided, now that I had given way to Mary's opinion, I began to feel as if it were a game I was playing.

"I don't see how."

"I said no more, but packed what we needed. Mary and Gardner were to remain at the flat until we got there, so that Mary could introduce us to the superintendent. She had said:

"He's got a good tenant now and he knows it. He might object to a change if I didn't say you were all right."

The little flat looked very pleasant and homelike when we reached it. Mary had cleaned until everything shone. It was very tiny, very cheap. But even I felt the homey atmosphere

as soon as we entered.

A gay cloth was on the kitchen table, a plate of red checked apples as a centerpiece. In her improvised window ice box Mary had half a dozen eggs, some slices of bacon, and a pat of butter. The bread tin held half a loaf of bread! For toast, she explained.

"But I supposed we'd have to go out to breakfast!" I exclaimed, delighted that Mary had been so thoughtful.

"My treat!" she replied. "You're a dear, Mary! Isn't she Gardner?" I had seen Gardner but seldom since he and Mary had me come engaged. But now I had none of the old jealous feeling. My real anxiety over the one man I loved had made all other things seem small by comparison. I was truly glad of their happiness.

"Indeed she is!" Gardner replied to my question. "And she needs a rest. It will be good for her to get away from housekeeping for awhile. I shall make her dine with me nearly every night."

"You see, Gerry, I knew what I was about!" Mary slipped her arm through Gardner's. "Come on, dear, let's leave these children alone. They said goodnight to Robert, who remained in the kitchen while I accompanied them to the door, and lingered chatting just a moment. I gasped at what I saw on my return to the kitchen."

Robert was sitting beside the table, his arms folded on the ray cloth, his head upon them, his shoulders shaking. Robert, my indifferent husband, was sobbing like a child.

To be Continued.

## BOARD WILL HEAR RAIL MEN'S DEMANDS

Washington, March 23.—Formation of the joint railroad wage board was completed by the conference committees, representing the railroad corporations and the 16 railroad unions, which elected E. P. Whiter of the Pennsylvania Railroad chairman. The bipartisan body now is ready to begin consideration of the wage demands of the 2,000,000 workers made last August and which since have been twice before the president without settlement.

The board today began the task of re-examination of the voluminous record and data gathered by the wage adjustment boards of the railroad administration with respect to the workers' claims.

To Be Used as Basis.  
Contrary to the union forecast, the corporation representatives agreed to include these as part of the board's wage records and employ them, as far as practicable, as a basis upon which to discuss the long drawn out controversy.

According to present indications the board will not deal with the question as a whole until countless minor points of difference have been eliminated. Members were said to have proposed that the wage demands be taken up by classes, adjustments, reached and individual controversies settled and then the basis of a general percentage of increases discussed.

## THIRTY FIFTH STATE RATIFIES MEASURE

Olympa, Wash., March 23.—The Washington state legislature ratified the federal woman suffrage amendment today, making the thirty fifth state for ratification. No doubt is felt as to the result of the voting. Washington granted woman suffrage in its state in 1910 and was the critical state which caused a landslide in favor of woman suffrage.

## SYRIA WILL BOYCOTT ALLIED NATIONS NOW OCCUPYING ARABIA

Beirut, March 23.—Emir Feisal, the new-elected king of Syria, has declared a boycott against countries occupying territory of Arabs—France and England—and has organized a commission for the purpose of bringing Moslems and Christians into a better understanding.

Posters displayed at Damascus, where the Syrian congress proclaimed the independence of that country, declared:

"In spite of himself, the Moslem is brother to the Christian and the Jew. The Arab existed before Christ, Moses or Mohammed, and freedom and independence are rights of Syria. Religion is of God and the fatherland belongs to his children."

The Syrian congress signed a decree asking foreigners to evacuate that region, and Palestine and Mesopotamia are reported to have been included. A committee organized in Lebanon has issued a statement alleging that the district was illegally represented in the congress of Damascus.

cus when the independence of Syria was declared. Lebanon is a section of Syria, supposed to be strictly loyal to France and anxious for a French mandate, but the Turkish nationalists and Syrian movements are so general throughout Syria and Cilicia that seems improbable Francoecan continue her occupation of districts there unless she receives strong reinforcements.

## MAJORITY VOTE ENOUGH, DECLARES

Washington, March 23.—Ratification of treaties by the senate by a majority instead of a two-thirds vote was provided in a constitutional amendment proposed by Senator Owen, Democrat, Oklahoma, in the senate yesterday.

Under the Owen amendment the president would have power "by and with the advice of the senate to frame treaties and with the consent of the senate, a majority of the senators present concurring therein, to conclude the same."

**BOARD WILL HEAR RAIL MEN'S DEMANDS**  
Washington, March 23.—Formation of the joint railroad wage board was completed by the conference committees, representing the railroad corporations and the 16 railroad unions, which elected E. P. Whiter of the Pennsylvania Railroad chairman. The bipartisan body now is ready to begin consideration of the wage demands of the 2,000,000 workers made last August and which since have been twice before the president without settlement.

The board today began the task of re-examination of the voluminous record and data gathered by the wage adjustment boards of the railroad administration with respect to the workers' claims.

## PASTRY HINTS

What Makes Bakers' Pies so brown on top? Milk brushed over crust with a small brush will give your pies the same appearance.

The Crystal Drops on the meringue of pies? Just before returning to oven to brown, sprinkle a little sugar over it.

The Edges of their pies, so smooth and never any juice seeping out? After forming first crust in your pie pan dip the fingers in water and moisten the edge, then add second crust and press together with the palms of the hands, instead of fingers or fork, until dough falls away from the edge.

Names and Odd Figures on cake with "icing" so even? Take a piece of brown paper four inches square, form into a funnel, clip off the point into a V shape. Fill funnel with icing and squeeze out over cake in any form desired.

To Remove Cake From Pan—If cake sticks to pan and threatens to break to pieces when you take it out turn the pan upside down and lay on the bottom of it a cloth wrung out of cold water. About five minutes after

the cake can be removed without crumbling to pieces.

When Making Crust for pies mix up quite a quantity at a time two or three days before using; that is, the flour, salt and shortening. This will keep indefinitely in a covered crock and with only the addition of water, it is always ready for use. Crust made in this manner is ever so much nicer, being invariably tender and flaky.

## FOR THE TABLE

Pork Chops and Dressing—Use as many chops as you need for your family. Make dressing of stale bread, minced onion, two tablespoons of lard, salt, pepper and one egg. Mix all well together.

Take half of the chops and put a good layer of dressing on each one, then place the other chops on the dressing.

Put two tablespoons of drippings in roaster, lay in chops and roast as you would chicken, one pint of boiling water being put in roaster when put in oven. Baste often.

These are fine and would be good for a holiday dinner where no chicken or turkey is to be used.

Economy Cake—One tablespoon lard or butter substitute (rounded), one cup sugar, one-quarter teaspoon salt.

Mix well, add one egg and beat; then add one cup water, one teaspoon vanilla. Mix three cups flour, two level teaspoons baking powder and add to mixture.

If batter is too thin add more flour and beat at least five minutes. Molasses Drop Cookies—One cup molasses, one-half cup lard or drippings, one-third cup boiling water, one teaspoon soda, salt, cinnamon and ginger to taste.

Add flour till almost stiff enough to roll out. Flatten spoonful on a greased tin, leaving room to spread. Bake in a moderate oven.

## THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

A MODERN STORY OF HOME AND BUSINESS

## A SURPRISE

Chapter 84.

Robert was at home. He sat by the window, but I could see he had not been watching for me, but had been engrossed by his thoughts.

"Come on, Robert!" I cried, gayly. "We will hurry with our dinner—then I have a surprise for you."

He got up immediately, but showed no interest. Neither did he ask any questions.

We had dinner at a nearby restaurant. When we returned to the house, I said:

"Help me pack up, Robert. I am going to take a vacation."

"You need it. Where will you go?" His tone was so cool, so indifferent, it brought the tears to my eyes.

"Not far! And you are going with me."

"Don't talk nonsense, Gerry!" He shrugged his shoulders impatiently as he turned away and walked over to the window. "You know very well I can take no vacation."

"I don't want you to! You'll have to hustle all the harder to give me mine." I remembered what Mary had said. I would make him feel responsible.

"Kindly tell me what you are talking about, and what you intend to do?" I had dragged a heavy suitcase from the closet. That would be all we need take. I could get the rest of our things the next day. It would be all I would have to do.

"Robert, we are going to be babes in the wood. Mary is going to lead us the woods. We are the babes. If

you get chronic indigestion, don't blame me. I'll try not to poison you, but that's all I can promise."

"You mean—?" a gleam of interest had come into his eyes.

"I mean that Mary Ryan can't let Gardner come often enough to suit him because she is alone. She offered to swap her flat for our quarters for a month. I left Madame this afternoon. We'll have another honeymoon, dear."

"I was so near crying I had to keep on talking to hide my feeling from him."

"Honest, Gerry? You're not fooling?" There was a lilt in his voice I had not heard in weeks. Then in the old tired tone, "But it's too late now. If we could have done this when I was with Cadding, we could have had a heap of fun—had the Weeds and Murphys for eats, and had a good time generally. Now we can't afford it."

"We will afford it somehow." Now that I had decided, now that I had given way to Mary's opinion, I began to feel as if it were a game I was playing.

"I don't see how."

"I said no more, but packed what we needed. Mary and Gardner were to remain at the flat until we got there, so that Mary could introduce us to the superintendent. She had said:

"He's got a good tenant now and he knows it. He might object to a change if I didn't say you were all right."

The little flat looked very pleasant and homelike when we reached it. Mary had cleaned until everything shone. It was very tiny, very cheap, but even I felt the home atmosphere

as soon as we entered.

A gay cloth was on the kitchen table, a plate of red checked apples as a centerpiece. In her improvised window ice box Mary had half a dozen eggs, some slices of bacon, and a pat of butter. The bread tin held half a loaf of bread! For toast, she explained.

"But I supposed we'd have to go out to breakfast!" I exclaimed, delighted that Mary had been so thoughtful.

"My treat!" she replied.

"You're a dear, Mary! Isn't she Gardner?" I had seen Gardner but seldom since he and Mary had become engaged. But now I had none of the old jealous feeling. My real anxiety over the one man I loved had made all other things seem small by comparison. I was truly glad of their happiness.

"Indeed she is!" Gardner replied to my question. "And she needs a rest. It will be good for her to get away from housekeeping for awhile. I shall make her dine with me nearly every night."

"You see, Gerry, I knew what I was about!" Mary slipped her arm through Gardner's. "Come on, dear, let's leave these children alone. They said goodnight to Robert, who remained in the kitchen while I accompanied them to the door, and lingered chatting just a moment. I gazed at what I saw on my return to the kitchen—

Robert was sitting beside the table, his arms folded on the gay cloth, his head upon them, his shoulders shaking. Robert, my indifferent husband, was sobbing like a child.

To be Continued.
